A unique survey of each country in the region. It includes an extensive collection of facts, statistics, analysis and directory information in one accessible volume.

This book comprises selected proceedings of the International Conference on Recent Advancements in Civil Engineering and Infrastructural Developments (ICRACEID 2019). The contents are broadly divided into five areas (i) smart transportation with urban planning, (ii) clean energy and environment, (iii) water distribution and waste management, (iv) smart materials and structures, and (v) disaster management. The book aims to provide solutions to global challenges using innovative and emerging technologies covering various fields of civil engineering. The major topics covered include urban planning, transportation, water distribution, waste management, disaster management, environmental pollution and control, environmental impact assessment, application of GIS and remote sensing, and structural analysis and design. Given the range of topics discussed, the book will be beneficial for students, researchers as well industry professionals.

This book has been prepared keeping in mind rapid changes taking place in the land-locked economy of Nepal seated in the lap of Great Himalaya where tourism is expected to contribute in a big way. Salient Features - Analyzes economic impact of tourism growth on various aspects of the Nepalese economy. - Explores the role of tourism on globalization of this backward economy. - Attempts to incorporate important studies undertaken in this context. - Incorporates opinions of leading experts on tourism promotion and economic development exclusively for this book. - Thoroughly reviews contours of changes in tourism policy. - Well documented in terms of source of tourism information, institutions and chronological highlights, etc. In view of the above, this piece of work would be of immense use to policy makers, planners, researchers, practioners and also to students for whom sufficient materials have been added.

The book is a collection of high-quality, peer-reviewed innovative research papers from the International Conference on Signals, Machines and Automation (SIGMA 2018) held at Netaji Subhas Institute of Technology (NSIT), Delhi, India. The conference offered researchers from academic and industry the opportunity to present their original work and exchange ideas, information, techniques and applications in the field of computational intelligence, artificial intelligence and machine intelligence. The book is divided into two volumes discussing a wide variety of industrial, engineering and scientific applications of the emerging techniques.
