Forget the Fad Diets, Join the Food Freedom Movement! Counting calories is out. All the food groups are in. Becoming trim and healthy doesn't have to be difficult or painstaking anymore. After trying almost every fad diet out there, Serene Allison and Pearl Barrett, creators of the Trim Healthy Mama movement, took matters into their own hands. Through trial and error and much research, they created the Trim Healthy Mama Plan, the breakthrough lifestyle program to help readers of all ages and stages get healthy, slim down and keep off the weight once and for all. Based on the authors' successful self-published book, this simplified, improved, practical plan shows readers a unique way to lose weight and get healthy by eliminating sugar, and still eating hearty, delicious food. The biblically-sound and highly effective eating approach centers on Satisfying meals (which include more fats and protein) and Energizing meals (which include more carbs and protein), as they are the key to success. Scrumptious whole, unprocessed foods, including fats, blood sugar friendly grains, proteins, fruits, and vegetables, are eaten in a way that boosts metabolism, yet still fits into anyone's hectic lifestyle. It's family friendly and effective for pregnant and nursing mothers, pre or post- menopausal women, and also those without weight or health issues—even men and growing children. The book includes menu plans, a list of key super foods to eat on plan, time-saving tips, and pantry stocking and lifestyle advice to help readers successfully reach their goals. Join the Trim Healthy Mama movement and along with thousands of others, and discover the groundbreaking, easy-does-it, and delicious way to eat for health and weight loss.

The series Topics in Current Chemistry Collections presents critical reviews from the journal Topics in Current Chemistry organized in topical volumes. The scope of coverage is all areas of chemical science including the interfaces with related disciplines such as biology, medicine and materials science. The goal of each thematic volume is to give the non-specialist reader, whether in academia or industry, a comprehensive insight into an area where new research is emerging which is of interest to a larger scientific audience. Each review within the volume critically surveys one aspect of that topic and places it within the context of the volume as a whole. The most significant developments of the last 5 to 10 years are presented using selected examples to illustrate the principles discussed. The coverage is not intended to be an exhaustive summary of the field or include large quantities of data, but should rather be conceptual, concentrating on the methodological thinking that will allow the non-specialist reader to understand the information presented. Contributions also offer an outlook on potential future developments in the field.

For the 20 million women who suffer from painful intercourse: the first book to address the multiple causes and the available treatments. Painful sex is a condition that causes embarrassment and silence -- often going undiscussed or misdiagnosed; as many as 40 percent of women who suffer from it won't seek medical care. And most medical professionals are still in the dark when it comes to women's sexual pain. Now, three leading experts tackle the stereotypes, myths, and realities of sexual pain in this easy-to-understand, accessible guide that will help you get the help you need and deserve. Drs. Goldstein, Pukall, and Goldstein offer answers to your most pressing questions, as well as: Up-to-date information on the more than 20 causes of sexual pain How to choose the right doctor -- and how to interpret your doctor's lingo Valuable tips for understanding sexual pain, and what can be done about it How to rebuild sexual intimacy once the pain is gone Featuring groundbreaking research and stories from women who've also suffered -- and recovered -- When Sex Hurts provides all of the tools you need to stop hurting and start healing.
