The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

"Eleven is much more intrepid than only ten." On the eve of her eleventh birthday, Lucky wants to let loose and become intrepid; she's ready for life to change. But Hard Pan (population 43) drones on like it always has: Lincoln all tied up in knotty matters, Miles newly diagnosed as a genius but as needy as ever, Brigitte running her Caf 6 and trying to figure out what it means to be American. Enter Paloma, tagging along on a visit to Hard Pan with a pack of hungry geologists. She's smart and pretty and fun -- definitely best-friend material. But will Lucky be able to cope with tomato worms, Short Sammy's mysterious box, the potential for disaster when Paloma's parents visit Hard Pan, and Lincoln's fame among knot tyers of the world? Lucky's intrepidness is put to the test in this satisfying sequel to the Newbery Award-winning The Higher Power of Lucky.
