Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

In 1993, Tony Magee, who had foundered at every job he'd ever had, decided to become the founder of a brewery. *So You Want to Start a Brewery?* is the thrilling first-person account of his gut-wrenching challenges and heart-warming successes. Based in Petaluma, California, the Lagunitas Brewing Company makes simple and flavorful craft beer that defies

categorization. The same could be said for this book. Equal part memoir, narrative, and business story, with liberal dashes of pop culture and local color, this illuminating yet hilarious account of a one-of-a-kind made-in-America journey just happens to culminate with the success of one of the nation's most popular craft beer brands. In twenty years, Lagunitas has grown from a seat-of-the-pants one-man operation to be the fifth largest—and the fastest-growing—craft brewer in the United States. *So You Want to Start a Brewery?* is a look behind the curtain rather than a simple business story. It's unglamorous and full of hilarious digressions, but it's never afraid to mess with the nuts and bolts. Devoted to details but never boring, this is a must-read for all who have considered starting their own business—or have sweated blood working to get one on its feet. Told in the vibrant voice of the

man closest to the process—and with the most to lose—this illuminating volume should quench the thirst of anyone who has ever tried a Lagunitas beer. Tony Magee is the founder and CEO of the Lagunitas Brewing Company. He lives in Marin County, California.

So you want to turn your Yugo into a Viper? Sorry--you need a certified magician. But if you want to turn your sedate sedan into a mean machine or your used car lot deal into a powerful, purring set of wheels, you've come to the right place. *Car Hacks & Mods for Dummies* will get you turbo-charged up about modifying your car and guide you smoothly through: Choosing a car to mod Considering warranties, legal, and safety issues Hacking the ECU (Engine Control
