book will focus upon the massive size, value, importance and impact of the industry. It will also investigate the dominance of UK based Research and Development and design and the development of team strategy and tactics. The authors have based their analysis upon very up-to-date research involving interviews with key individuals at the highest level and visibility within the industry and focus upon the key management themes of teamworking, leadership, strategy and innovation.

This library owns 80 volumes of this compendium of company histories (usually 2-3 pages each). See the index in volume 80 for all companies covered.

Today, the Multinational Enterprise (MNE) is seen as a leading agent in the process of globalization. As they adopt global strategies, MNE's are seen to be creating stronger, deeper and more lasting links amongst countries, thus shifting the balance of power inexorably in their favour, to the detriment of the state. This book interrogates this idea by undertaking a historical analysis of the global strategies of Ford.
