Four WWII combatants travel to a distant and dangerous future in this novel by “two of the most revered names from [science fiction’s] Golden Age” (SFReviews.net). During World War II, four bitter enemies are pulled forward a billion years in time by a master being from an alien galaxy. They arrive on a dying Earth—to Carcasilla, Earth’s last citadel—where the mutated remnants of humanity are making their final stand against the monstrous creations of a fading world. Thrust in the middle of this desperate struggle for survival, the last humans must put aside their differences and stop the looming Armageddon. Praise for Henry

for everyday use. The book soon became established as a standard source of information on printing inks and reached its fourth edition by 1988. This, the fifth edition, is being published only five years later, so rapid has been the development in technology. The objective of the Printing Ink Manual remains unchanged. It is a practical handbook designed for use by everyone engaged in the printing ink industry and the associated industries. It provides all the information required by the ink technical for the day-to-day formulation of printing inks. It supplies the factory manager with details of the latest equipment and manufacturing methods, including large-scale production, and gives guidance on achieving quality assessment and total quality management specifications. Care has been taken to maintain the value of the Manual for training both technical personnel and others who requiresome kn- ledge of

inks. Readers with little scientific knowledge will not find difficulty in using the Manual, but sufficient chemistry and physics have been included to provide an explanation of the underlying principles and theories governing the behaviour of inks for use by the advanced technologist. Suppliers of raw materials, substrate manufacturers, printers and print users will find the book a valuable source of information.

The complete story of the legendary Honda V4 motorcycles and the four-stroke engine design that gave them the name. Including full production histories, comprehensive specification details and over 250 colour illustration, the book covers design and development of the first Honda V4, the oval piston NR500, and the VF road models from 1982-1988.
