They come at night when Ember Janerro is sleeping, when she lies unconscious and vulnerable and alone. The slavers have always erased her memory as fast as they open the locked front door. Her mind is designed to offer no resistance, to keep her blankly imprisoned behind amnesic barrier. The perfectly controlled super-spy. Until this morning. When Ember wakes at dawn, standing in a grove behind a gas station in someone else's clothes, one thought pounds through her head: My name is not always Ember. Realizing her simple life as a nurse is the manipulated cover for her secret life under mind control, Ember is now a threat to the most powerful secret society in the world. When a mysterious philanthropist offers to help her find freedom, Ember uncovers psychic abilities that the manipulators have invested millions to hide and control. And she's running out of time.

This practical and helpful volume details how clinicians can work through various common challenges in individual, couple, or group psychotherapy. Chapters draw upon clinical wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a

prioritization of exploration over explanation. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt and unilateral termination of therapy, the therapist's loss of compassionate neutrality when treating a couple, and many more. Many of the "Clinical Pearls" prioritize working in the here-and-now. In addition to offering advice and strategies for therapists, the book also addresses concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Addressing Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy.

It's a homecoming, of sorts, for Jayné Heller—and she wants some long-awaited answers to her past, in this fifth book in the acclaimed *Black Sun's Daughter* urban fantasy series. After years on her own, Jayné Heller is going home to find some answers. How did the powerful spirit calling itself the Black Sun get into her body? Who was her uncle Eric, and what was the grand plan that he devoted his life to? Who did her mother have an affair with, and why? What happened to her on her sixteenth birthday? And the tattoo—seriously—what was that about? Jayné arrives amid preparations for her older brother's shotgun wedding, but she's not the only unexpected guest. The Invisible College has come to town to stop the ceremony. And the more she learns, the more she uncovers a darkness that runs deeper than generations and stronger than blood. A missing bride and wizards bent on vengeance may be the least of her problems. Because in the shadows of Jayné's childhood home, a greater threat awaits that didn't die with her uncle. It calls itself the Graveyard Child.
