CESSNA 206G TURBO

The Cessna T206H Turbo Stationair provided for this flight test by Cessna's dealer is the model first introduced in 2009. It has an all-glass panel, a turbocharged engine, on-board oxygen and leather seats for six.

Softcover - Erica Denny was not yet fifteen when her mother died. She wanted to run, not run away, but move far, far away from the subdivision near Dallas, Texas. Erica's father, Alan had little desire to carry on without his wife. Coupled with her drive to get far away from there and the need to make her father feel as though he had something to live for, Erica used a long flickering desire of Alan's to start life anew in Alaska. Follow them on their new adventures. The third book in "David Cristwell's Alaska" series chronologically.

This training guide diminishes the dangers and doubles the thrill--and safety--of flying single-engine aircraft at high altitudes in mountainous regions. Logically organized by phases of flight--from preflight preparation to landings--the author combines statistics, techniques, and examples of actions (correct and incorrect) that real pilots have taken in actual flight scenarios. * Details training that offsets mountain flying mistakes * Describes the effects of altitude on pilots and aircraft * Outlines cold weather operations and precautions * Includes search and rescue operation procedures * Reviews take-off conditions from airport mountains
