The new Ecotec motors replaced the GM 122 Pushrod Engine (2.2 L OHV) in base models in 2003, and became the sole engine choice in the entire Cavalier line-up until 2005 when the Chevrolet Cavalier was replaced by the Chevrolet Cobalt. A GM Eaton M45 Supercharger kit was also offered for the Z24 trim as well. The supercharger kit was developed and tested by General Motors and could only be installed at a GM dealer.

Provides information on the new features of current car and truck models, lists advantages and disadvantages, safety features, crash ratings, and specifications, and rates and reviews each vehicle.

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

When four friends get together to use a mystical Ouija board, they are astonished when they come into contact with the restless spirit of a teenage girl from New Jersey, who lived her life during the 1970s. They soon find themselves wandering through the woods at night in search of her diary. However, once they begin to read it they are treated to an unexpected tale filled with unspeakable acts and heinous brutal crimes. It becomes apparent that the restless soul of young Audrey Malone Frayer has unfinished business, which she needs tending to and it appears she's chosen them to help her. In this second novel by Jason Medina, author of "No Hope for the Hopeless at Kings Park," we are treated to a special story that ties an adolescent girl's troubled times of the 1970s with the lives of four young people in the present, particularly the character named Jay, who feels especially attached to Audrey's spirit. Somehow he forms a bond with her, while reading her diary, which takes control of him making him obsessed with trying to help her take care of her unfinished business. He feels like there is a connection between them that he cannot ignore, although the meaning of that connection remains a mystery to him. It begins to haunt him almost immediately from the moment he first made contact with her spirit. Will he be able to figure out the connections between the past and the present in time, before it is too late? Someone's life may very well depend upon it and it could be his own!

The future of the free market depends on fair, honest business practices. *Business Ethics: Contemporary Issues and Cases* aims to deepen students' knowledge of ethical principles, corporate social responsibility, and decision-making in all aspects of business. The text presents an innovative approach to ethical reasoning grounded in moral philosophy. Focusing on corporate purpose—creating economic value, complying with laws and regulations, and observing ethical standards—a decision-making framework is presented based upon Duties-Rights-Justice. Over 40 real-world case studies allow students to grapple with a wide range of moral issues related to personal integrity, corporate values, and global capitalism. Richard A. Spinello delves into the most pressing issues confronting businesses today including sexual harassment in the workplace, cybersecurity, privacy, and environmental justice.

The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics.
