The Ford Five Hundred entered production on July 12, 2004 at Chicago Assembly (the previous assembly site of the Ford Taurus), and became available to the public in September 2004.

This book is based on the true story of a woman who was driven and goal-oriented. In her late forties, she suffered a nervous breakdown and lost everything she had worked hard for and the people she loved. Her husband died, and her loss of sanity pushed the affection of her only child away from her. She spiraled into a deep depression she was not aware of. With all hope lost, she attempted suicide several times. However, after many years of despair, the Lord touched her life, and she was given a chance for a new beginning—and many wondrous events happened thereafter.

Traces the development of the 1996 Ford Taurus, and describes the interactions between designers, engineers, marketers, accountants, and manufacturing staff

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 20112012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

Features recommendations and ratings on hundreds of small, medium, and large-sized cars based on quality, economy, performance, and comfort standards, with judgments on crash protection, and assessments of available options
