However, you can tune and modify the Chrysler 300, Dodge Magnum, Charger, and Challenger for more performance, and for many owners, fast is not fast enough. In the pursuit of a higher-performing LX-platform car, former Mopar Muscle editor Randy Bolig has created this book

to show you how to extract ultimate performance from these cars. Chrysler has built more than one million Chargers, Challengers, and other full-size-platform cars starting with the Dodge Magnum and Chrysler 300. These cars offer competent handling, braking, and suspension

of upgrades, so you select the best modification for your car, application, and budget. He also covers basic to extreme modifications for the R/T and SRT8 models with the 5.7-, 6.1-, and 6.4-liter Hemi engines.

experience of reading
literature. It runs from

works of major literary

critics of the twentieth

century, such as I.A.

explores the ways in

which associationist

literature gave rise to

some of the key

transformations in
British writing
between the romantic
and modernist
periods. In particular,
he analyses the ways
in which authors'
conceptions of the
form of their readers'
aesthetic experience
led to radical
developments in
literary style, from the
fragmentary narrative

Detailed analyses are offered of the ways in which a wide variety of major British writers, including Scott, Lady Morgan, Dickens, Tennyson, Hardy, Yeats, Joyce and Woolf developed their literary techniques on the basis of associationist conceptions of the mind, and of how
