Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don ' t perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Bright, determined and focused Abby Taylor has not lost her sense of humor in spite of taking an indefinite leave of absence from her position as Professor of Anglo Saxon Studies at Vassar College due to Polycystic Kidney Disease. And she certainly doesn't go out looking for trouble any more than her attractive companion, Northern Arizona Forestry Professor David Neale does. But once again it finds them. And once again, Abby's beloved Corgi dog Francis will do all that he can to protect his humans. In the midst of the beautiful ranching country near Prescott, AZ, where their borrowed house is located, Abby and David, along with the faithful Francis, should be enjoying a pleasant break from daily cares and concerns. But alas, disturbing events begin unfolding left and right. Who would poison a Hereford Yearling? Who would shoot an innocent and much respected Basque sheepherder? And who would turn the highway going down from Mingus Mountain into a death trap? As they try to live their peaceful lives amidst the splendor of the high desert, it becomes evident that some questions must be answered if Abby, David, and Francis are going to stay alive... in Arizona.

A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." – The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada ' s automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.
