A Complete ABA Curriculum for Individuals on the Autism ...

A Complete ABA Curriculum is an enormous book, but they easily could have saved the paper and made it about five times smaller, as the majority of the pages are repeats of essentially the same data sheet for every program. To me, the ways it recommends targeting skills embody the negative stereotype of ABA.

Assessment and Curriculum - Eden Autism Services

Level 1. BRAND NEW! Divided into two parts, "Social Boundaries" and "Relationships Building," this program is an ideal introduction to the Circles Paradigm, especially for students with mild to moderate cognitive impairment. Circles Level 1 has had a complete overhaul. Updated with all new videos and additional relationships, Circles will help your students 'SEE' social boundaries.

Covering intermediate skills such as comprehension of abstract language, social and play skills, emotional and behavioral regulation, and academic skills, this comprehensive ABA curriculum has been developed specifically for individuals on the autism spectrum with a developmental age of approximately 4-7 years. Evidence-based, the resource guides instructors step-by-step through using ABA to teach 150 intermediate skills. The program can be individualized to meet the needs and interests of the individual, and instructions are given on how to do this. Accompanying online downloadable content contains the teaching materials needed to implement the program, including over 1000 printable color picture cards and worksheets, handy printable copies of the curriculum programs, data forms and checklists. The authors also provide guidance on creating an effective ABA teaching environment, as well as a wealth of practical teaching strategies for ensuring therapy success. This is an unparalleled resource for professionals working with children with ASDs who are looking for a robust and ready-to-implement ABA curriculum. It will be a valuable tool for behaviour analysts, teachers, psychologists, occupational therapists, and students in these fields, as well as to parents working with professionals to implement an ABA program.

The first comprehensive, evidence-based curriculum, including supplementary materials, for teaching older children and young people with autism spectrum disorders aged approximately 7-22 years key advanced skills such as organisational skills, advanced self-care skills, complex academic and vocational skills and advanced skills for daily living.

A comprehensive, evidence-based curriculum, including supplementary materials, for teaching children with autism spectrum disorders aged approximately 3-5 years key basic skills such as imitation, visual spatial awareness, expressive and receptive language skills, and basic skills of daily living.

A comprehensive, evidence-based curriculum, including supplementary materials, for teaching children with autism spectrum disorders aged approximately 1-4 years key foundational skills such as appropriate sitting, attention, eye contact, motor skills, basic receptive and expressive language skills and basic skills of daily living.

This curriculum uses the proven principles of applied behavior analysis (ABA) as a way to monitor the progress of children on the autism spectrum and make sure they reach their full potential. It gives adults a clear outline on what to teach and how to teach it, in order to ensure children are reaching developmental goals at this crucial stage. The book's three sections, Assessment, Curriculum and Mastered, each include built-in data collection, which is reproduced on the accompanying online downloadable content so it can be printed off. All three sections cover ten pivotal areas of progress for this age group, including reading, writing, math, conversation and social skills. The Assessment section records the child's initial level of learning and then tracks their progress over time. The Curriculum section provides the lesson plans for the skills which need to be developed, and the Mastered section is a tool for checking that learnt skills are being retained over time. It is also possible to record whether the child has adapted to using the skills in a variety of settings. This curriculum provides everything that an adult working with a child with an autism spectrum disorder would need to ensure a thorough and appropriate ABA program for the young learner.

Guide to Educate Children Diagnosed with Autism Through Applied Behavior Analysis

This curriculum gives a clear outline on what and how to teach the young child with autism, using principles of applied behavior analysis. The book is divided into three sections: Assessment, Curriculum and Mastered, each with built-in data collection. It covers nearly 90 steps in a child's development, broken down into manageable tasks.

"This pioneering curriculum contains powerful programs to teach each First Grade Common Core standard for both English Language Arts and Math. The curriculum has been created exclusively for students in special education settings using the evidence-based principles of Applied Behavior Analysis (ABA). Completely unique, this curriculum drills down into each standard and breaks it into teachable steps. Programs are presented in a format that supports data collection and ease of use. Clear instructions detail the Teaching Procedure, Discriminative Stimulus, and Materials required for teaching. Each standard lists several targets that demonstrate the component steps and skills required for mastery. A thorough "how-to" guide presents the main tenets of ABA, giving staff an accessible understanding of motivation and reinforcement, pairing, prompting, generalization, natural environment teaching, preference assessment, and data collection. In addition, comprehensive data sheets are included, along with samples of how to complete them."--Page [4] of cover.

What's included in the "One-Year ABA Parent Training Curriculum?" This manual for applied behavior analysis parent training professionals, includes 26 lessons (plus one bonus lesson) that you can use to provide biweekly parent training sessions. This ABA parent training program offers a structured curriculum that also allows for flexibility and individualization to the client! Each lesson is jam-packed with research-supported content. Each lesson includes 5 pages of extremely valuable content including: 2 pages of reading material providing background information on the lesson topic for the service provider. These pages include research-supported content and references from relevant literature. 1 page that serves as an easy-to-read handout for parents 1 page we call the "Topic Exploration Form" which helps the parent training session to stay focused, address medically necessary content, and helps guide the session - ultimately to provide optimal value to your client! 1 page designed as a homework assignment or activity that the parent can do outside of the session (or with the provider if they prefer) The worksheets and handouts in the curriculum may be copied for the book owner's entire caseload or personal use. Additional users must purchase a new copy per copyright. This book is designed for professionals who work with parents with a child with autism spectrum disorder. However, the majority of the curriculum is not autism-specific and, therefore, may also benefit other youth including children with ADHD, behavioral difficulties, communication delays, and even typically developing children. This book includes 149 pages of research-supported content to help you streamline your ABA parent training services while providing high quality behavioral intervention.
