A Frequency Dictionary of Contemporary American English: word sketches, collocates, and thematic lists is an invaluable tool for all learners of American English, providing a list of the 5,000 most frequently used words in the language. The dictionary is based on data from a 385-million-word corpus evenly balanced between spoken English (unscripted conversation from radio and TV shows), fiction (books, short stories, movie scripts), more than 100 popular magazines, ten newspapers, and 100 academic journals for a total of nearly 150,000 texts. All entries in the rank frequency list feature the top 20 30 collocates (nearby words) for that word, which provide valuable insight into the meaning and usage. Alphabetical and part of speech indexes are provided for ease of use. The dictionary also contains 31 thematically organized and frequency-ranked lists of words on a variety of topics, such as family, sports, and food. New words in the language, differences between American and British English, and grammar topics such as the most frequent phrasal verbs are also covered. A Frequency Dictionary of Contemporary American English is an engaging and efficient resource enabling students of all levels to get the most out of their study of vocabulary. It is also a rich resource for language teaching, research, curriculum design, and materials development. A CD version is available to purchase separately. Designed for use by corpus and computational linguists it provides the full text in a format that researchers can process and turn into suitable lists for their own research work..."

A Frequency Dictionary of Contemporary Arabic Fiction provides a list of the top 2,000 words occurring in contemporary Arabic fiction. Based on a written corpus that contains 144 literary samples, the dictionary addresses key areas of Arabic language learning and teaching, including lexical frequency, reading skills, and Arabic literature. Each entry in the main frequency index includes a sample sentence, English translation, and frequency indicator, and alphabetical and part-of-speech indexes are provided for ease of use. The dictionary also contains 19 thematically organized and frequency-ranked lists of words on a variety of topics, such as food, places, emotions, and nature. Engaging and highly useful, this Frequency Dictionary is a valuable resource for students and instructors working in the area of TAFL, and for applied linguists interested in Arabic corpus linguistics.

First published in 2010. Routledge is an imprint of Taylor & Francis, an informa company.
