The compelling and insightful account of a New York Times reporter's abduction by the Taliban, and his wife's struggle to free him. Invited to an interview by a Taliban commander, New York Times reporter David Rohde and two Afghan colleagues were kidnapped in November 2008 and spirited to the tribal areas of Pakistan. For the next seven months, they lived in an alternate reality, ruled by jihadists, in which paranoia, conspiracy theories, and shifting alliances abounded. Held in bustling towns, they found that Pakistan's powerful military turned a blind eye to a sprawling Taliban minstate that trained suicide bombers, plotted terrorist attacks, and helped shelter Osama bin Laden. In New York, David's wife of two months, Kristen Mulvihill, his family, and the New York Times struggled to navigate the labyrinth of issues that confront the relatives of hostages. Their methodical, Western approach made little impact on the complex mix of cruelty, irrationality, and criminality that characterizes the militant Islam espoused by David's captors. In the end, a stolen piece of rope and a prayer ended the captivity. The experience tested and strengthened Mulvihill and Rohde's relationship and exposed the failures of American effort in the region. The tale of those seven months is at once a love story and a reflection of the great cultural divide-and challenge-of our time.

The compelling and insightful account of a New York Times reporter's abduction by the Taliban, and his wife's struggle to free him. In November 2008, David Rohde, a Pulitzer Prize-winning correspondent for The New York Times, was kidnapped by the Taliban and held captive for seven months in the tribal areas of Pakistan. In the process, Rohde became the first American to witness how Pakistan's powerful military turns a blind eye toward a Taliban minstate thriving inside its borders. In New York, David's wife Kristen Mulvihill, together with his family, kept the kidnapping secret for David's safety and struggled to navigate a labyrinth of conflicting agendas, misinformation, and lies. Part memoir, part work of journalism, *A Rope and a Prayer* is a story of duplicity, faith, resilience, and love.

Revised and updated "One of today's most respected journalists, David Rohde takes on one of the country's most toxic conspiracy theories," presenting a "scrupulously reported and even-handed" account of how power and intelligence are exploited in Washington that "goes deep indeed inside America's security state, telling a story that will surprise readers of all political persuasions" (Jane Mayer, author of Dark Money). Donald Trump blamed his 2020 defeat on Democrats and the "deep state"—a supposed secret cabal of Washington insiders that relentlessly encroaches on the individual rights of Americans—for stealing the election and undermining his presidency. Most Americans who supported him agreed. Americans on the left increasingly fear the "military-industrial complex," a faction of generals and defense contractors who they believe routinely push the country into endless wars. But does the American "deep state" really exist? This question is fundamental to preserving the legitimacy of American democracy, as frustration with and distrust for the government continue to grow. In Deep seeks to dispel these pernicious myths through an examination of the FBI, CIA, and Justice Department scandals of the past fifty years from the Church Committee's exposure of Cold War abuses to the claims and counterclaims of the Trump era and the relentless spread of conspiracy theories online and on air. It exposes the misconduct of Attorney General William Barr, how distrust of the "deep state" undermined the US government response to the COVID-19 pandemic, and the growing discord sowed by the explosion of false information online. It investigates Trump's quest to discredit government experts, the legislative and judicial branches, and the results of the 2020 election and assume authoritarian power for himself. "The idea of the deep state, Rohde writes, is inextricably linked to a particular view of presidential power" (Dina Temple-Raston, Washington Post). Based on dozens of interviews with career CIA operatives and FBI agents, "In Deep is a wholly satisfying read and a necessary one for anyone wanting to understand the forces at play in our government today" (Andrea Bernstein, Peabody Award-winning cohost of the Trump, Inc. podcast and author of American Oligarchs).

An award-winning journalist's extraordinary account of being kidnapped and tortured in Syria by al Qaeda for two years—a revelatory memoir about war, human nature, and endurance that's "the best of the genre, profound, poetic, and sorrowful" (The Atlantic). In 2012, American journalist Theo Padnos, fluent in Arabic, Russian, German, and French, traveled to a Turkish border town to write and report on the Syrian civil war. One afternoon in October, while walking through an olive grove, he met three young Syrians—who turned out to be al Qaeda operatives—and they captured him and kept him prisoner for nearly two years. On his first day, in the first of many prisons, Padnos was given a blindfold—a grime-stained scrap of fabric—that was his only possession throughout his horrific ordeal. Now, Padnos recounts his time in captivity in Syria, where he was frequently tortured at the hands of the al Qaeda affiliate, Jebhat al Nusra. We learn not only about Padnos's harrowing experience, but we also get a firsthand account of life in a Syrian village, the nature of Islamic prisons, how captors interrogate someone suspected of being CIA, the ways that Islamic fighters shift identities and drift back and forth through the veil of Western civilization, and much more. No other journalist has lived among terrorists for as long as Theo has—and survived. As a resident of thirteen separate prisons in every part of rebel-occupied Syria, Theo witnessed a society adrift amid a steady stream of bombings, executions, torture, prayer, fasting, and exhibitions, all staged by the terrorists. Living within this tide of violence changed not only his personal identity but also profoundly altered his understanding of how to live. Offering fascinating, unprecedented insight into the state of Syria today, *Blindfold* is "a triumph of the human spirit" (The New York Times Book Review)—combining the emotional power of a captive's memoir with a journalist's account of a culture and a nation in conflict that is as urgent and important as ever.

American bush pilot Russell Stendal, on routine business, landed his plane in a remote Colombian village. Gunfire exploded throughout the town and within minutes Russell's 142 day ordeal had begun. The Colombian cartel explained that this was a kidnapping for ransom and that he would be held until payment was made. Held at gunpoint deep in the jungle and with little else to occupy his time, Russell got ahold of some paper and began to write. He told the story of his life and kept a record of his experience in the guerrilla camp. His "book" became a bridge to the men who held him hostage and now serves as the basis for this incredible true story of how God's love penetrated a physical and ideological jungle. How did this incredible true story affect Russell? "At first my mind went wild with thoughts of revenge and violence. Then, after a while, I was able to see through their attempt to break me down and brainwash me. I started making a determined effort to throw all their stories and dramas out of my mind and not to let my thoughts dwell on them at all. I would trust God that He would take care of my wife and I would close my mind to my captors' input. I decided to think about positive values instead." "I told them that they had two choices, either kill me, or let me go for whatever small amount my family could afford. One of the guerrillas turned and asked me if I was afraid to die. I replied that dying is obviously uncomfortable, but yes, I was prepared to die." "My captors tied me up and left the rope on day and night. They were seriously trying to completely break me psychologically and then brainwash me. Every day new things were done to alter me and work towards that goal. My captors started telling me scare stories. Some of these stories were about wild animals. They told me some of the wildest, hair-raising tales about lions and tigers that I have ever heard. These stories were designed both to intimidate me, reducing my ability to sleep, and to cause me to think twice before I decided to try to escape into the jungle again." "God used my hostage situation to show me that I had been guilty of resisting God's hand on my life and had therefore been unwittingly spending an unnecessary amount of time in that spiritual birth canal being squeezed all out of shape instead of coming out into the light and being born again. I decided that I was going to forget my own big missionary plans and projects, and instead I would concentrate on discerning where God was moving and then try to jump on His bandwagon - God taught me how to be a true missionary for Him. I began to react towards problems and adversity as opportunities to learn important things and as opportunities for God to use me to bring glory to Himself. My life changed to one of victory in Jesus Christ. I still have problems, difficulties, and even an occasional defeat; but now I can clearly see the design and purpose that God has for my life. If I have the right attitude, God can reign over everything that happens in my life and teach me something useful from even the most difficult experiences.""

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly, Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Our plans for the June weekend were simple: camp on Friday and Saturday night in a pretty little mountain campground and drive our youth group down to San Juan Capistrano on Sunday for a beach outing. Saturday evening, a group of motorcyclists roared into the campground. Shouting that there were children asleep, the camp manager ordered them to get out. They left as noisily as they had come in. I drifted back to sleep. Bam! Bam! Gunshots jolted me awake! "It won't work to shoot 'em in the head," a man's voice said. "When they do the autopsy, it will show they were shot with a 410." "Get the rope and turn the lights on this bunch of trees and start here! If you find any little ones, just hang 'em in their bags!" Frantically tearing the back screen from our tent and awaking my twelve-year-old daughter, we began a terrifying two-week flight for help and survival! This is our true story.
