The Canadian experts speak: Dozois, Abnormal Psychology 5e with MySearchLab, now in full-psychedelic colour! Abnormal Psychology: Perspectives exemplifies its subtitle by cohesively presenting the numerous individual perspectives of its expert contributors. It presents the differing psychological perspectives by discussing various relevant paradigms with emphasis on the conceptual approaches and therapeutic interventions that have garnered the most empirical support in research literature. As a ground-up Canadian text, it features indigenous case studies, legal and ethical issues, prevention programs, and ground-breaking research, as well as the history of abnormal psychology in this country. The new edition features a new full-colour interior, coverage of the DSM-5 including a disorder-by-disorder comparison with the DSM-IV, three new Canadian contributors, and a new chapter on Sexual Gender Identity Disorder. The organization, level, and features of each chapter have also been standardized to resulting in a more consistent, unified student experience.

Provides subject reviews and information on scoring and test structure, offers test-taking strategies, and includes four full-length practice examinations.

This updated manual presents one diagnostic test and two full-length practice tests that reflect the actual AP Psychology Exam in length, subject matter, and difficulty. All test questions are answered and explained. It also provides extensive subject review covering all test topics. Topics reviewed include research methods, the biological basis of behavior, sensation and perception, states of consciousness, learning, cognition, personality, abnormal psychology, and treatment of disorders. This manual also presents an overview of the test, extra multiple-choice practice questions, test-taking tips, and an analysis of the test's essay question with a sample essay. Enclosed with the manual is a CD-ROM that presents two more practice tests with answers, explanations, and automatic scoring, as well as extensive subject review.

Addresses two primary questions—what causes psychopathology and which treatments are most effective in preventing or reducing psychological suffering. Uses four paradigms or points of view to study abnormal psychology: biological, psychoanalytic, learning and cognitive. Also uses the humanistic and existential paradigm when therapy is at issue. New to this edition: an account of DSM-IV, the impact of cultural diversity on the categorization, etiology and therapeutics of diverse disorders such as posttraumatic stress, eating and borderline personality. Includes case studies, full color line and photographic illustrations.

Reviews subjects on the test, offers tips on test-taking strategies, and includes two full-length practice exams with answers and explanations.

Taking a look at the field of abnormal psychology, including major theoretical models of abnormality, research directions, clinical experiences, therapies and controversies, this book covers personality disorders, the psychodynamic perspective, neuroscience, the 'empirically-based treatment' movement, and more.

Doing well in examinations at university is crucial to gaining a good degree. This guide provides students with the tools they need to optimise their exam performance, explaining strategies for learning and revision.

EVERYTHING YOU NEED TO SCORE A PERFECT 5. Ace the AP Psychology Exam with this comprehensive study guide—including 2 full-length practice tests with complete answer explanations, thorough content reviews, targeted exam strategies, and access to online extras. Everything You Need to Know for a High Score. • Comprehensive content reviews for all test topics • Up-to-date information on the 2019 AP Psychology Exam • Engaging activities to help you critically assess your progress • Access to online study plans, a handy list of key terms, helpful pre-college information, and more Practice Your Way to Perfection. • 2 full-length practice tests with detailed answer explanations • Practice drills at the end of each content review chapter • Detailed step-by-step explanations of sample questions to help you create your personal pacing strategy Techniques That Actually Work. • Tried-and-true strategies to avoid traps and beat the test • Tips for pacing yourself and guessing logically • Essential tactics to help you work smarter, not harder Written by the experts at The Princeton Review, Cracking the AP Psychology Exam arms you to take on the test and achieve your highest possible score.
