Abrirse Paso es un libro de intensos y geniales cuentos de Claudia Cortalezzi. En ellos, la fatalidad y la sorpresa van de la mano. En cada uno de los cuentos, desde un mundo donde hay algo, un don, un defecto, una enemistad vestida de visita fraternal, un pasado doloroso, un presente que entrevemos inseguro, esquivo, la autora nos lleva no a otro sino a ese mismo mundo en su tensi\u00f3n m\u00e1s oscura, m\u00e1s siniestra, a una esfera de sucesos y relaciones por momentos brutalmente intensa, oscura, atroz. La autora de Una simple palabra, In excelsis, No ser o ser, Distrito Territorial San Telmo, entre otros libros, lo hace con una maestr\u00eda a la que ya nos tiene felizmente acostumbrados. Felizmente, porque ella se las arregla para que siempre nos intereseamos, nos sorprendamos y nos emocionemos como por primera vez.

Prepared by U.S. linguists, this dictionary uses idioms, phrases and sentences as basic units — not single words. English-Spanish and Spanish-English sections contain modern equivalents for over 18,000 sentences.

A dictionary for English and Spanish speakers that contains over 80,000 entries of common words, phrases, and idioms used in each language.

Esta \u00faltima nos propone, desde su \u00edtulo, el desaf\u00edo de una mirada introspectiva. M\u00e1s que un reparto de trabajadores habaneros, Alamar es, en esta novela, una alegor\u00eda a cubana con la cual el autor persevera en su estilo aglutinador de la realidad, procurando mostr\u00e1rnosla en su compleja amalgama y con un lenguaje polif\u00f3nico en que la diversidad cultural de nuestro pueblo se revela en su consistente unidad. Sin ser arquet\u00edpicos ni caricaturescos, los personajes ilustran con sus nombres, apariencias y conductas, algunos aspectos de la variopinta sociedad de la isla, de tal forma que en ellos es posible que identifiquemos a algunos vecinos y nos reconozcamos nosotros mismos.

This guide aims to provide practical tools to non-specialists'essentially water resources planners, river basin managers, non-governmental organizations and private sector operators. It links the most recent practice on payments for hydrological services to current discourse on integrated water resources management and looks into the different aspects to consider when exploring the potential feasibility of establishing reward or payments for ecosystem services related to water security. Pay demystifies concepts and jargon, and through a series of tools, case studies and stories from around the world, describes pitfalls to avoid and provides hints to fill gaps in knowledge. It is based on a demand-driven approach, linking text, tools and illustrations to key questions emerging from current and potential practitioners.
