Tamara Hoyland, formerly an undercover operative for government intelligence, has been a blameless wife, mother and archaeologist for nearly twenty years. Now her three sons have flown the nest, her husband is working abroad, her day job is about to fold, and death is on her mind - particularly when her father-in-law Gordon Hope passes on, and she is left to deal with the funeral arrangements. It was a natural death...wasn't it? But doubts arise when Gordon's oldest son Euan, a doctor experienced in the process of legal euthanasia, returns from America...

Seyonne, the slave-turned-savior of the acclaimed Revelation and Transformation, returns to fight evil and tame the demons within him—in the third novel in this "thoroughly original" (Starburst) epic saga.

This book covers a variety of topics related to the Industry 4.0 concept, with a special emphasis on the efficiency of production processes and innovative solutions for smart factories. It describes tools supporting this concept in both the mechanical engineering and biomedical engineering field. The content is based on papers presented at the 6th International Scientific-Technical Conference MANUFACTURING 2019, held on 19-22 May 2019, in Poznan, Poland. Virtual reality, simulation of manufacturing systems, additive manufacturing, big data analysis, automation and application of artificial intelligence, as well as economic and social issues related to the integration of those technologies are just some of the topics discussed here. All in all, the book offers a timely and practice-oriented reference guide for researchers and practitioners, and is expected to foster better communication and closer

cooperation between universities and their business and industrial partners.

Everyone wears a mask. But the deadliest secrets hide in plain sight. Marie St. Jean ' s supreme acting talent comes with a price: Every spellbinding performance extracts a piece of her soul. When she reluctantly steps into a role abandoned by another leading lady, she encounters the ghostly spirit that caused the other woman to flee in terror. And who promises to fix Marie ' s affliction – for a price. Marie ' s other problem – her attraction to alluring violinist, Johann Bledsoe, a temptation she dares not explore. However, with the Prussians surrounding Paris, she is well and truly trapped. Johann left disgrace and his gambling debt behind in England, but a murder outside the Théâtre Bohème makes him fear he ' s been exposed. He ' d love nothing more than to claim Marie as his own, but after the siege is over, his past will catch up to him again. Under the baleful eye of steam-powered ravens, more murders drive Marie and Johann closer to the truth of what really lurks below the stage, and what dangers hang over their heads. Their only hope could lie in exposing their darkest secrets—and surrendering to the Eros Element in a way that could push them irretrievably close to the edge of madness. Clockwork Phantom is the second book in the Aether Psychics, a thrilling steampunk series with puzzling mysteries and hints of magic. If you like historical mysteries with a scientific – or is it supernatural? – twist, then you'll love Cecilia Dominic's Aether Psychics series. Note: Clockwork Phantom can be read on its own or as part of the Aether Psychics series. It was originally titled Light Fantastique.
