I had just moved into my first apartment and finally felt like I was free. I was holding down a job and handling everything on my own enjoying my new place until one day I found out I wasn't the only one enjoying it. Somehow and somehow I was being watched. But how and by whom? I would soon find out that there were cameras that I couldn't see in my apartment not by word of mouth but by watching the daily news and learning from tips I was getting from my friends on social media sites like Facebook, Snapchat, and Instagram. And what started as a small joke between close friends soon spilled over into the entertainment world from music to sports and even daytime shows until it eventually reached the head of our country, the president of the United States.

This new Beginner Book about manic skiing squirrels—by J. Hamilton Ray with illustrations by Pascal Lemaitre—has the feeling of an old classic read-aloud. "Nobody knew how the mania grew. First there was one, and then there were two. Three more came gliding from under the trees. LOOK! On the hill. Those are squirrels on skis! Below lay the town, snow-covered and still. Not a sound could be heard. All was silent, until . . . Swwwishhhh swooped the skiers, all dressed for play. Eighty-five squirrels and more on the way!" As you can imagine, the townsfolk are NOT amused. Can intrepid reporter Sally Sue Breeze find out where the squirrels are getting their skis-and make them stop skiing long enough to eat lunch-before pest-control guy Stanley Powers sucks them up in his vacuum device? (Don't worry—Sally triumphs in a most unexpected way.) With delightfully understated, funny illustrations by Pascal Lemaitre, this is the perfect book for beginning readers to curl up and chill out with on a snow day—or any day! Originally created by Dr. Seuss, Beginner Books encourage children to read all by themselves, with simple words and illustrations that give clues to their meaning.
