and contractor liability.

The Managing Contracts Module is to introduce those tools, techniques and methodologies for managing contracts that have been identified as being “best tested and proven” practices which have been found to work on “most projects, most of the time”; provide a logical or rational sequence showing when those tools or techniques would normally and customarily be used and in selected instances, show how to use those tools/techniques and/or where to find additional information on how to use or apply them.

A true management time-saver, this volume covers all project management stages, from pre-design up to the point that construction begins. Following the standard American Institute of Architects (AIA) project format and three-hole punched for portability, it supplies checklist for site analysis, schematic design, design development, and covers all phases of prebidding, bidding, and negotiations, as well as contracts and post-construction administration.
