All The Kremllins Men Inside

The tenuous edifice is filled with all of the intrigue and plotting of a Medici court, as enemies of the state are invented and wars begun to justify personal gains, internal rivalries, or one faction's biased advantage. A bestseller in Russia, All the Kremlin's Men is a shocking revisionist portrait of the Putin era and a dazzling reconstruction of the machinations of courtiers running riot.

"Charting the transformation of Vladimir Putin from a passionate fan of the West and a liberal reformer into a hurt and introverted outcast, All the Kremlin's Men is a historical detective story, full of intrigue and conspiracy. This is the story of the political battles that have taken place in the court of Vladimir Putin since his rise to power, and a chronicle of friendship and hatred between the Russian leader and his foreign partners and opponents..."--

An extraordinary behind-the-scenes portrait of the court of Vladimir Putin, the oligarchs that surround it, and the many moods of modern Russia that reads like a "real House of Cards"(Lev Lurie). All the Kremlin's Men is a gripping narrative of an accidental king and a court out of control. Based on an unprecedented series of interviews with Vladimir Putin's inner circle, this book presents a radically different view of power and politics in Russia. The image of Putin as a strongman is dissolved. In its place is a weary figurehead buffeted--if not controlled--by the men who at once advise and deceive him. The regional governors and bureaucratic leaders are immovable objects, far more powerful in their fiefdoms than the president himself. So are the gatekeepers--those officials who guard the pathways to power--on whom Putin depends as much as they rely on him. The tenuous edifice is filled with all of the intrigue and plotting of a Medici court, as enemies of the state are invented and wars begun to justify personal gains, internal rivalries, or one faction's biased advantage. A bestseller in Russia, All the Kremlin's Men is a shocking revisionist portrait of the Putin era and a dazzling reconstruction of the machinations of courtiers running riot.

A New York Times and Sunday Times bestseller | A New York Times Book Review Editors' Choice Named a best book of the year by The Economist | Financial Times | New Statesman | The Telegraph "[Putin's People] will surely now become the definitive account of the rise of Putin and Putinism." —Anne Applebaum, The Atlantic "This riveting, immaculately researched book is arguably the best single volume written about Putin, the people around him and perhaps even about contemporary Russia itself in the past three decades." —Peter Frankopan, Financial Times Interference in American elections. The sponsorship of extremist politics in Europe. War in Ukraine. In recent years, Vladimir Putin's Russia has waged a concerted campaign to expand its influence and undermine Western institutions. But how and why did all this come about, and who has orchestrated it? In *Putin's People*, the investigative journalist and former Moscow correspondent Catherine Belton reveals the untold story of how Vladimir Putin and the small group of KGB men surrounding him rose to power and looted their country. Delving deep into the workings of Putin's Kremlin, Belton accesses key inside players to reveal how Putin replaced the freewheeling tycoons of the Yeltsin era with a new generation of loyal oligarchs, who in turn subverted Russia's economy and legal system and extended the Kremlin's reach into the United States and Europe. The result is a chilling and revelatory exposé of the KGB's revanche—a story that begins in the murk of the Soviet collapse, when networks of operatives were able to siphon billions of dollars out of state enterprises and move their spoils into the West. Putin and his allies subsequently completed the agenda, reasserting Russian power while taking control of the economy for themselves, suppressing independent voices, and launching covert influence operations abroad. Ranging from Moscow and London to Switzerland and Brooklyn's Brighton Beach—and assembling a colorful cast of characters to match—*Putin's People* is the definitive account of how hopes for the new Russia went astray, with stark consequences for its inhabitants and, increasingly, the world.

Yaffa introduces us to some of contemporary Russia's most remarkable figures who have built their careers and constructed their identities in the shadow of the Putin system. Torn between their own ambitions and the omnipresent demands of the state, each walks an individual path of compromise. They understand that their dreams are best-- or only-- realized through varying degrees of cooperation with the Russian government. By showing how citizens shape their lives around the demands of a capricious and frequently repressive state-- as often by choice as under threat of force-- Yaffa offers urgent lessons about the true nature of modern authoritarianism. -- adapted from jacket

“A beautifully written and very lively study of Russia that argues that the political order created by Vladimir Putin is stagnating” (Financial Times). From Kaliningrad on the Baltic to the Russian Far East, journalist Ben Judah has traveled throughout Russia and the former Soviet republics, conducting extensive interviews with President Vladimir Putin's friends, foes, and colleagues, government officials, business tycoons, mobsters, and ordinary Russian citizens. *Fragile Empire* is the fruit of Judah's thorough research: A probing assessment of Putin's rise to power and what it has meant for Russia and her people. Despite a propaganda program intent on maintaining the cliché of stability, Putin's regime was suddenly confronted in December 2011 by a highly public protest movement that told a different side of the story. Judah argues that Putinism has brought economic growth to Russia but also weaker institutions, and this contradiction leads to instability. The author explores both Putin's successes and his failed promises, taking into account the impact of a new middle class and a new generation, the Internet, social activism, and globalization on the president's impending leadership crisis. Can Russia avoid the crisis of Putinism? Judah offers original and up-to-the-minute answers. “[A] dynamic account of the rise (and fall-in-progress) of Russian President Vladimir Putin.” —Publishers Weekly “[Judah] shuttles to and fro across Russia's vast terrain, finding criminals, liars, fascists and crooked politicians, as well as the occasional saintly figure.” —The Economist “His lively account of his remote adventures forms the most enjoyable part of *Fragile Empire*, and puts me in mind of Chekhov's famous 1890 journey to Sakhalin Island.” —The Guardian

How the West's obsession with Vladimir Putin prevents it from understanding Russia It is impossible to think of Russia today without thinking of Vladimir Putin. More than any other major national leader, he personifies his country in the eyes of the world, and dominates Western media coverage. In Russia itself, he is likewise the centre of attention both for his supporters and his detractors. But, as Tony Wood argues, this focus on Russia's president gets in the way of any real understanding of the country. The West needs to shake off its obsession with Putin and look beyond the Kremlin walls. In this timely and provocative analysis, Wood explores the profound changes Russia has undergone since 1991. In the process, he challenges several common assumptions made about contemporary Russia. Against the idea that Putin represents a return to Soviet authoritarianism, Wood argues that his rule should be seen as a continuation of Yeltsin's in the 1990s. The core features of Putinism—a predatory elite presiding over a vastly unequal society—are in fact integral to the system set in place after the fall of Communism. Wood also overturns the standard view of Russia's foreign policy, identifying the fundamental loss of power and influence that has underpinned recent clashes with the West. Russia without Putin concludes by assessing the current regime's prospects, and looks ahead to what the future may hold for the country.

**NEW YORK TIMES BESTSELLER** Following his explosive New York Times bestseller *Red Notice*, Bill Browder returns with another gripping thriller chronicling how he became Vladimir Putin's number one enemy by exposing Putin's campaign to steal and launder hundreds of billions of dollars and kill anyone who stands in his way. When Bill Browder's young Russian lawyer, Sergei Magnitsky, was beaten to death in a Moscow jail, Browder made it his life's mission to go after his killers and make sure they faced justice. The first step of that mission was to uncover who was behind the \$230 million tax refund scheme that Magnitsky was killed over. As Browder and his team tracked the money as it flowed out of Russia through the Baltics and Cyprus and on to Western Europe and the Americas, they were shocked to discover that Vladimir Putin himself was a beneficiary of the crime. As law enforcement agencies began freezing the money, Putin retaliated. He and his cronies set up honey traps, hired process servers to chase Browder through cities, murdered more of his Russian allies, and enlisted some of the top lawyers and politicians in America to bring him down. Putin will stop at nothing to protect his money. As *Freezing Order* reveals, it was Browder's campaign to expose Putin's corruption that prompted Russia's intervention in the 2016 US presidential election. At once a financial caper, an international adventure, and a passionate plea for justice, *Freezing Order* is a stirring morality tale about how one man can take on one of the most ruthless villains in the world—and win.

Presents the authors' theory about the sovietization of Eastern Europe, and examines the communications between Mao, Stalin, and Kim Il Sung that brought about the Korean War

Documents the Russian prime minister's rapid ascent from a low-level KGB operative to the presidency, describing his selection by an ailing Boris Yeltsin's oligarchy and the ways in which the author believes that his views and ambitions have renewed Russia's threatening position to its citizens and the world. By the author of *Perfect Rigor*. Reprint. 35,000 first printing.
