"Thirtysomething Nicky Fowler has it all-- a rewarding career, a loving husband and the perfect home. But when she and her husband suffer a complicated tragedy, the strain of two people dealing with an impossible situation in different ways breaks up their marriage. Emotionally lost, Nicky travels to Kenya to volunteer at an orphanage. Amidst the violence and abject poverty, Nicky discovers the one thing that keeps Kenyans moving forward: hope. Over steaming mugs of chai, the country's signature drink, Nicky opens up to her host mother, Mama Bu, and finds

understanding, love and strength. And with that strength, Nicky realizes what she needs to do to save the endangered children she's grown to love. Based on a true story" -- p. [4] of cover.

July Fourth: New York City Hundreds of thousands line the banks of the East and Hudson Rivers awaiting the nation's largest fireworks display. Soon the sky will explode in cascading showers of silver and gold. Everywhere, faces will turn skyward in wide-eyed wonder. Then the sky will grow dark again—but it will not be empty. The air will be filled with clouds of smoke and specks of debris will rain down everywhere. Some will pick bits of paper from their children's hair. Some will brush away still-burning sparks or embers. And some will absentmindedly scratch at the tiny, biting specks that dot their necks and arms. Will the beginning of the show mark the beginning of the end? That's what FBI agent Nathan Donovan must decide. When he is forced to enlist the help of ex-wife Macy Monroe, and expert in the psychology of terrorism, the fireworks really begin—but she may be the only one who can help him stop the Plague maker in time. "Plague Maker is a novel that can proudly be shelved beside any [book] featuring Crichton or Clancy and hold its own." —www.infuzemag.com

This handbook provides the radiological monitor with the information and techniques normally required to perform essential duties. It also provides guidance that may be required, but should not be used, unless competent guidance is unavailable from a radiological defense officer. The possession of this manual is not sufficient to assure that an untrained person can effectively carry out the duties and responsibilities required of a radiological monitor. All personnel assigned monitoring responsibilities should complete, as a minimum, the Radiological Monitoring Course prescribed by the Office of Civil Defense, Department of Defense.

The Forest Ranger II, III Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study.
