A detailed pocket reference to everything from pyramids and mummies to pharaohs and hieroglyphics provides a wealth of information on ancient Egyptian culture, in an illustrated guide that also includes coverage of the region's modern life. Original.

The ancient Egyptians have fascinated and enthralled millions down the centuries. With extensive scientific knowledge, splendid architecture, and many artistic and cultural achievements, their civilization stood apart as being ahead of its time. This compact and informative guide is perfect for all those studying ancient Egypt, visiting the sights, or curious to find out more about this fascinating period. Includes a wide range of topics such as geography, including how the Nile added to the success of their civilization; history, including a timeline spanning 3,000 years from 3100BC to 395AD and covering each dynastic period; religion, including the role of the gods and goddesses, and pharaohs, including Cheops, Nefertiti, and Tutankhamun. The section on life in ancient Egypt details the different levels in society, the jobs, family life, and leisure activities. Learning and knowledge are covered, focusing on the hieroglyphs and the scribes. The armies, weapons, and armor are discussed in the section on wear, while funeral rites and mummification are detailed in the section on death in ancient Egypt. Lastly, contemporary Egypt is discussed, including archaeology, discoveries, and what a visit is like today.

Reflexology is increasing in popularity as more people turn towards natural forms of medicine. This is a practical introduction, full of diagrams, photographs and clear advice on using reflexology to treat medical problems.

From theatre to politics, no other single civilisation has influenced the Western world more profoundly than that of ancient Greece.

A brand-new edition of this bestselling Gem, featuring individual charts for all 88 constellations, a star atlas of the entire sky and details of the brightest stars and objects of interest which can be seen with the naked eye, binoculars and small telescopes. Collins Gem Stars provides details of all 88 constellations of the Northern and Southern hemispheres, complete with star charts and a star atlas of the entire sky, ideal for practical observation of the stars throughout the world all year round.

Reflexology is increasing in popularity as more people turn towards natural forms of medicine. This is a practical introduction, full of diagrams, photographs, and clear advice on using reflexology to treat medical problems. The basis of reflexology is that areas in the foot correspond to different parts of the body. The art of reflexology is to recognize any imbalances and correct them through manipulation. The book starts with an introduction to the origin of reflexology and then covers how reflexology works, the reflex areas of the feet, the position of the reflex areas, how to give treatment, general advice on treatment, the complete treatment to cover the whole body from the brain to the lymphatic system, specific treatments for particular ailments, and possible reactions to treatment. Let this Collins Gem introduce you to the theory and practice of reflexology. It gives you a clear, step-by-step guidance to help you understand and practice the benefits of reflexology.

The classic foraging guide to over 200 types of food that can be gathered and picked in the wild, Food for Free returns in its 40th year as a sumptuous, beautifully illustrated and fully updated anniversary edition.

"A detailed overview of the history of the ancient Greek and ancient Egyptian civilizations, through the age of Alexander the Great"--Provided by publisher.
