New York Times Bestseller Living in New York City for five years as a transplant from Ohio, illustrator and T-shirt designer Nathan Pyle was fascinated by the unique habits and unspoken customs New Yorkers follow to make life bearable in a city with 8 million people (and seemingly twice the number of tourists). In NYC Basic Tips and Etiquette, Pyle reveals the secrets and unwritten rules for living in and visiting New York including the answers to such burning questions as, how do I hail a cab? What is a bodega? Which way is Uptown? Why are there so many doors in the sidewalk? How do I walk on an escalator? Do we need be touching right now? Where should I inhale or exhale while passing sidewalk garbage? How long should I honk my horn? If New York were a game show, how would I win? What happens when I stand in the bike lane? Who should get the empty subway seats? How do I stay safe during a trash tornado? Each tip is a little story illustrated in simple black and white drawings.

The secret to finding out anything you want to know is amazingly simple: Ask good questions. Most people trip through life asking bad questions-of teachers, friends, coworkers, clients, prospects, experts, and suspects. Even people trained in questioning, such as journalists and lawyers, commonly ask questions that get partial or misleading answers. People in any profession will immediately benefit by developing the skill and art of good questioning. Find Out Anything From Anyone, Anytime will give you the power to: Identify and practice good questioning techniques Recognize types of questions to avoid Know the questions required when hearing unconfirmed reports or gossip Practice good listening techniques and exploit all leads Determine when and how to control the conversation Gain real expertise fast Within professional interrogation circles, author James Pyle is known as a strategic debriefer-meaning there is no one around him more skilled at asking questions and getting answers. He has been training other interrogators in questioning techniques since 1989.
