This edition meets the requirements of students in medical and dental sciences, homeopathy, physiotherapy, occupational therapy, Ayurveda, Yoga, Unani, Siddha and alternative medicine, who are newly admitted to their respective professional colleges. It introduces the reader to the basics of human anatomy and anatomic terminology along with various structures which constitute the human body. All the chapters have been extensively illustrated with simple colour diagrams. Each chapter begins with a quotation giving subtle meaning to the topic. - A new chapter on basic genetics has been added to make the book more meaningful. - The chapter on radiology has been expanded and revised
