An authentic, heartfelt and compelling narrative – straight from the horse’s mouth – that reveals for the first time numerous unknown aspects of the life and times of one of the greatest legends of all time who stands out as a symbol of secular India. Dilip Kumar (born as Yousuf Khan), who began as a diffident novice in Hindi cinema in the early 1940s, went on to attain the pinnacle of stardom within a short time. He came up with spellbinding performances in one hit film after another – in his almost six-decade-long career – on the basis of his innovative capability, determination, hard work and never-say-die attitude. In this unique volume, Dilip Kumar traces his journey right from his birth to the present. In the process, he candidly recounts his interactions and relationships with a wide variety of people not only from his family and the film fraternity but also from other walks of life, including politicians. While seeking to set the record straight, as he feels that a lot of what has been written about him so far is ‘full of distortions and misinformation’, he narrates, in graphic detail, how he got married to Saira Banu, which reads like a fairy tale! Dilip Kumar relates, matter-of-factly, the event that changed his life: his meeting with Devika Rani, the boss of Bombay Talkies, when she offered him an acting job. His first film was Jwar Bhata (1944). He details how he had to learn everything from scratch and how he had to develop his own distinct histrionics and

style, which would set him apart from his contemporaries. After that, he soon soared to great heights with movies such as Jugnu, Shaheed, Mela, Andaz, Deedar, Daag and Devdas. In these movies he played the tragedian with such intensity that his psyche was adversely affected. He consulted a British psychiatrist, who advised him to switch over to comedy. The result was spectacular performances in laugh riots such as Azaad and Kohinoor, apart from a scintillating portrayal as a gritty tonga driver in Naya Daur. After a five-year break he started his 'second innings' with Kranti (1981), after which he appeared in a series of hits such as Vidhaata, Shakti, Mashaal, Karma, Saudagar and Qila.

This now classic book traces the social origins of the sexual division of labor. It gives a history of the related processes of colonization and 'housewifization' and extends this analysis to the contemporary new international division of labor and the role which women have to play as the cheapest producers and consumers. First published in 1986, it was hailed as a major paradigm shift for feminist theory. Eleven years on, Maria Mies' theory of capitalist patriarchy has become even more relevant. In this new edition she both applies to her theory to the new, globalized world and answers her critics.

This book provides an ethnographic account of the ways in which biomedicine, as a part of the modernization of healthcare, has been localized and established as the culturally dominant medical system in rural Bangladesh. Dr Faruk Shah offers an anthropological critique of biomedicine in rural Bangladesh that explains how the existing social inequalities and disparities in healthcare are intensified by the practices undertaken in biomedical health centres through the healthcare bureaucracy and local gendered politics. This work of villagers' healthcare practices leads to a fascinating analysis of the local healthcare bureaucracy, corruption, structural violence, commodification of health, pharmaceutical promotional strategies and gender discrimination in population control. Shah argues that biomedicine has already achieved cultural authority and acceptability at almost all levels of the health sector in Bangladesh. However, in

this system healthcare bureaucracy is shaped by social capital, power relations and kin networks, and corruption is a central element of daily care practices.
