Born in Baltimore in 1915, and dead too early in New York in 1959, Billie Holiday became a legendary jazz singer, even mythical. With her voice even now managing to touch so many people, we follow a reporter on the trail of the artist on behalf of a New York daily. Beyond the public scandals that marred the life of the star (alcohol, drugs, violence...), he seeks to restore the truth, revisiting the memory of Billie. Through this investigation, Muñoz and Sampayo trace, through the undertones of racism, and in the wake of the blues, the slow drift of a singer who expressed the deepest emotions in jazz. By internationally renowned Argentine artists, featuring Muñoz' strikingly raw heavy blacks, this is not just a biography but a spell-binding art book tribute.

This graphic novel is set in Italy in 2048. Raniero is a fifty-something psychologist whose marriage is failing. In the sky, strange bright triangles appear, bearing mysterious messages from an extraterrestrial civilization. Dora, his young patient, is part of the "New" Convention, a movement of young people preaching free love and alternative models to coupling and family. She declares that her telepathic abilities can parse the signal — a warning of some kind. Initially skeptical, Raniero's curiosity and attraction grows. The Interview is a science fiction novel that eschews the stars in favor of the delicate, fragile, interior world of human emotion.

How is silence expressed? Can it be visual? Over 30 artists deal with the concept of silence and its absence.

In Sleepless Nights a woman looks back on her life—the parade of people, the shifting background of place—and assembles a scrapbook of memories, reflections, portraits, letters, wishes, and dreams. An inspired fusion of fact and invention, this beautifully realized, hard-bitten, lyrical book is not only Elizabeth Hardwick's finest fiction but one of the outstanding contributions to American literature of the last fifty years.
