Like other titles in the popular Lippincott® Illustrated Review Series, this text follows an intuitive outline organization and boasts a wealth of study aids that clarify challenging information and strengthen retention and understanding. This updated and revised edition emphasizes clinical application and features new exercises, questions, and accompanying digital resources to ready students for success on exams and beyond.

Lippincott Illustrated Reviews: Biochemistry is the long-established, first-and-best resource for the essentials of biochemistry. Students rely on this text to help them quickly review, assimilate, and integrate large amounts of critical and complex information. For more than two decades, faculty and students have praised this best-selling biochemistry textbook for its matchless illustrations that make concepts come to life. Master all the latest biochemistry knowledge, thanks to extensive revisions and updated content throughout, including an expanded chapter on macronutrients, a completely new chapter on micronutrients, and much more. A bonus chapter on blood clotting with new, additional questions is included online. See how biochemistry applies to everyday healthcare through integrative, chapter-based cases as well as "Clinical" boxes throughout. Learn and study effortlessly with a concise outline format, abundant full-color artwork, and chapter overviews and summaries. Look for icons that signal an animation at thePoint or an integrative clinical case in the Appendix. Assess and reinforce your learning with more than 200 new review questions available online.

Lippincott's Illustrated Reviews: Biochemistry has been the best-selling medical-level biochemistry review book on the market for the past ten years. The book is beautifully designed and executed, and renders the study of biochemistry enormously appealing to medical students and various allied health students. It has over 125 USMLE-style questions with answers and explanations, as well as over 500 carefully-crafted illustrations. The Third Edition includes end-of-

chapter summaries, illustrated case studies, and summaries of key diseases.

Rev. ed. of: Biochemistry / Pamela C. Champe, Richard A. Harvey, Denise R. Ferrier. 4th ed. c2008.

Thoroughly updated for its Fifth Edition, Lippincott's Illustrated Reviews: Biochemistry enables students to quickly review and assimilate large amounts of complex information through powerful visual resources essential to mastery of difficult biochemical concepts. Its signature outline format, full-color illustrations, end-of-chapter summaries, and USMLE-style review questions make it one of the most user-friendly books in the field. New features include case studies for each chapter and expanded coverage of molecular biology. A companion website offers fully searchable online text and additional USMLE-style questions for students and an image bank for faculty.

Lippincott's Illustrated Reviews: Biochemistry is the long-established first-and best resource for the essentials of biochemistry.
