The Bissell Little Green ProHeat uses hot water and detergent to clean carpet and upholstery. Even among those who regularly vacuum their carpets and take good care of their upholstery, deep cleaning is occasionally a necessity. High-traffic areas in particular are prone to soiling and dirt buildup. The Bissell Little Green ProHeat cleaner deep cleans both carpets and upholstery using hot water extraction.

Unscrew the black cap and remove bottle insert. 3. Fill tank with hot tap water to the water fill line. Add two ounces (1/4 cup) of BISSELL formula to the tank. 4.

Provides advice on cleaning and uncluttering the bedroom, bathroom, kitchen, living and dining rooms, patio, garage, basement, and driveway.

House cleaning has been an innate human activity forever but only since the early 19th century have mechanical devices replaced the physical labor (performed mostly by women). Mechanical carpet sweepers were replaced by manual suction cleaners, which in turn were replaced by electric vacuum cleaners in the early 20th century. Innovative inventors, who improved vacuum cleaners as electricity became commonly available, made these advances possible. Many early manufacturers failed, but some, such as Bissell, Hoover, Eureka and others, became household names as they competed for global dominance with improved features, performance and appearance. This book describes the fascinating people who made this possible, as well as the economic, cultural and technological contexts of their times. From obscure beginnings 200 years ago, vacuum cleaners have become an integral part of modern household culture.

This book is broken down into several parts to help you clean properly and efficiently. Each part is complete with a list of supplies for your convenience, and breaks down the cleaning process room by room, from top to bottom. The chapters are designed to stand alone, thus you may go ahead and read them out of sequence, if you so desire.
