This manual takes a look inside a modern, heavily automated car factory, where every car produced is bespoke, having been built specially to fulfill an individual customer's order. It is a fascinating insight into the processes, equipment, and people involved behind the scenes in building a MINI, from initial design studies and 'body-in-white' metal panels, to completed car on the way to its new owner.

If you own one of these fabulous cars then you know how fun it is to drive. And, you probably know that your MINI is packed with some of BMW's latest automotive technology. But if you want to maintain and repair your car yourself (or just want to understand what's going on under the bonnet),
