"This text follows the premise that the central theme of history is to build the kingdom of God and that all of history is Gods. It begins with the creation story and the Fall of Adam. It then uses the Bible as the foundation to how mankind and nations spread throughout the world. Finally it looks at His church and how it developed, the Reformation, and the founding and growth of the United States" --

History Stories for Children exposes children to a wide variety of wholesome stories based upon famous historical events and personalities from the Bible, America and around the world. Students sharpen their reading skills while they learn about King David, Alexander the Great, George Washington and many others. The stories within this volume can be used to enhance a wide variety of unit or topical studies. Grade 3.

Basing this work on his own full-scale Systematic Theology, Berkhof summarizes the body of church doctrine, beginning with the doctrines of Scripture and God and proceeding through statements on anthropology, Christology, soteriology, and more.

Biology: A Search For Order In Complexity is a classic text originally developed by the Creation Research Society, now updated and available for your student in a full-color edition, beautifully photographed and illustrated. This hardbound text contains a thorough presentation of biological concepts and is scientifically accurate and true to six-day/young earth creationism. Grades 10-12.
