In 1995 the bike was restyled by Massimo Tamburini with similar lines to the then new Ducati 916, a design he also penned. The similarity is particularly visible in the front and rear fairings. Basically a racing 125cc bike for the road, the Mito packages gorgeous, big-bike styling, with a high-specification sportsbike chassis and engine. Its single-cylinder two ...

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." - an excerpt

No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape. McQueen ' s Machines gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve ' s son, Chad McQueen, and a wealth of details about of the star ' s racing career, stunt work, and car and motorcycle collecting, McQueen ' s Machines draws a fascinating picture of one outsized man ' s driving passion. Now in paperback.

A completely new edition in graphics and updated in content of the MV Agusta story by Mario Colombo and Roberto Patrignani to mark MV's 70th anniversary in 2015, all told in two different sections: in the first part are the human, technical, industrial and sports stories. In the second is the systematic cataloguing of all the MV Agusta road and racing models, including all the versions of the latest F4 and F3. Hundreds of pictures in black and white and color enrich the book, in the creation of which Otto Grizzo has contributed to the most recent part.

MV Agusta ' s classic four-cylinder dominated Grand Prix racing for a decade from 1956. This magnificent engine was always at the heart of the MV Agusta, and it was this engine that created the legend.

While the history of European ompetition motorcycles has been largely dominated by Italian, British, and German marques, other builders around the continent have also played significant roles from the turn of the century to present. Arranged by nation, this book examines more than two dozen important marques, including Bulltaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.
