You're only a click away from online success. The world of shopping is at a crossroads. While online sales are growing at runaway speed, many businesses are finding themselves left behind, discovering that what has worked so long in offline does not work online, and what works online does not necessarily translate offline: it simply doesn't click. Packed with tips, guidance and real-world case studies from online niche stores Bellabox and Facetache to the universal appeal of Groupon, and from offline discount stores Dollar Tree and Poundland to the luxury Selfridges, in this informative book internet psychologist Graham Jones reveals: \* Why most online shopping carts are abandoned before a purchase is ever made and how to stop this happening in your store \* Why having a centrally positioned search box aids navigation and increases sales \* Why offering free shipping online pays off \* Why it makes sense to be sociable He also reveals the why of consumer behaviour online, how it differs from offline behavior, and how you can use this understanding to create a store that connects with and engages your customers on both a practical and a psychological level a store that demonstrates true clickology. Using an accessible five-step CLICK system for turning clicks into dollars, the book shows how to learn from the experience of both on- and offline, and apply lessons to both. Whether you're running a small business website or that of a big corporation, whether you're operating purely online or offline too, Click.ology shows you how to thrive.

With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

OnlineShop ist nicht gleich Onlineshop! Es nützt nichts, gute Produkte oder Dienstleistungen im Angebot zu haben, wenn die Verkaufsplattform die Kunden nicht anspricht. Doch um den perfekten Webshop zu erstellen, muss man erst einmal die Psychologie der Käufer verstehen. Warum kaufen Leute generell? Warum kaufen sie online und wie machen sie das bevorzugt? Diesen Fragen geht Graham Jones in seinem Buch nach. Er zeigt, wie wichtig es ist, zu verstehen, was Kunden zum Kauf animiert, und erklärt davon abgeleitet, was konkret beachtet werden muss, wenn man einen Onlineshop erstellt. Von den Preisen über den Aufbau der Seite bis hin zur Werbung wird dem Leser alles systematisch in verständlicher Weise erklärt. Eine perfekte Anleitung und unterhaltsame Lektüre.
