Goes beyond traditional “ job hunt strategies ” to provide innovative solutions targeted to specific populations This graduate text for courses in career counseling is distinguished by its emphasis on creative interventions tailored to the unique needs of diverse populations. With a focus on career as a cornerstone of personal identity, the book explores the specific meaning of careers within different cultures and examines the challenges faced by—and potential solutions for--individuals with diverse backgrounds and needs. It describes unique interventions that allow counseling students to visualize and actualize career counseling with a wide range of clients and demonstrates techniques targeted to each population that can be put into practice immediately. The text provides demographic information regarding specific job-seeking groups including such “ traditional ” populations as college graduates and working parents, as well as groups that encounter special challenges such as stay-at-home parents returning to work, formerly incarcerated individuals, people with disabilities, teen mothers, African American, Hispanic and Asian males and females, older adults, LGBT individuals, and many others. Over fifty creative, innovative interventions that have been successfully applied help counselors to provide effective career development strategies with each population. Chapters include a vignette representing each population, group demographics, a history of career paths and obstacles, unique needs of the group, supports already in place, and specific career counseling assessment and interventions. The book also provides abundant resources for additional study. In addition to its value to career counselors, the text will also be useful to personal counselors who often deal with their client ' s career issues during treatment. Key Features: Provides in-depth exploration of underserved populations who hold unique career development needs Includes innovative career counseling interventions that move beyond standard “ job hunt strategies ” or “ resume preparation tips ” Explores life stage concerns related to career development across multiple diverse identities Gives readers step-by-step details on implementing over 40 innovative career counseling techniques Presents case studies that provide clear examples of the application of relevant interventions

Providing the most current, comprehensive coverage available, CAREER COUNSELING: A HOLISTIC APPROACH, 9th Edition equips students with a solid understanding of the theoretical models of career counseling and practical techniques on how to effectively counsel clients about career issues. Presenting the subject matter in a way that is relevant to all counseling students, Vernon Zunker uses an innovative holistic or “ whole person ” approach, demonstrating how to consider values, temperament, talents, and passions when integrating career with personal counseling to determine a client's best career fit. The thoroughly revised and updated Ninth Edition of this classic book includes chapters on integrating career and personal counseling, job loss and transitions, adult career development, and career-related programs in middle schools. In addition, diversity issues are integrated throughout, while relevant case studies bring chapter concepts to life. The text is also packed with tools to help students maximize their success in class and on the licensing exam. Career Counseling aims to link the past and the present, and to look to the future for significant developments in this critical field. Seven current methods are examined in detail: * the Trait-and-Factor approach * the Person-Centered approach * the Psychodynamic approach * the Developmental approach * the Social Learning approach * the Social Psychological approach * Computer Assisted Career Counseling Written to inform practicing vocational counselors and students about the practical and applied aspects of various counseling approaches, this book will help them maintain a data-based objectivity.

While personality traits and talents may help to predict a predisposition to a career type, this method of analysis neglects the influences of human purpose, passion, and life history. In Career Counseling, author Larry Cochran fills the void by introducing the theory of narrative construction, a method of counseling that injects personal identity into career development in a practical way. Cochran demonstrates how literary models and constructivist methods can be used in career development to provide the essential subjective dimension that has been lacking in practical counseling. In addition, he provides the innovative materials that are necessary for making this process both efficient and effective. This volume will be widely used by scholars and professionals in the fields of career counseling, clinical/counseling psychology, social psychology, and management.

This accessible look at " how to do career counseling " clearly defines the profession and the competencies counselors need to pursue as part of their training. Straightforward and accessible, Essential Elements of Career Counseling focuses on the practice of career counseling, examined through the basic techniques and resources useful in supporting the theories of career choice and development. The use of the Internet as a career counseling tool is emphasized; emerging issues such as Web-based counseling are explored; and case studies illustrate authentic counseling strategies and techniques in action. This edition features a new look at such areas as using group counseling methods in job searches and using the resume to inspire the development of career stories, providing a highly practical look at the practice of career counseling today.
