A car cannot have both - it is either automatic, or manual. Basically, if it has a clutch pedal it is a manual. If it doesn ' t it is an automatic. Some transmissions look very much like a manual transmission inside, but have no clutch pedal inside the car and are registered as automatics because of this.

What cars have both automatic and manual transmissions ...

The Smart 450 CDI has what is called a semi-auto transmission. It is a manual gear box with an automated clutch (no clutch pedal). You have the option of using the center console shifter or the paddle shifter to shift gears manually or put it into automatic mode where the car determines when to shift.
