Dog is a cat- the only problem is that he doesn't
behave like one! Instead he wags his tail, sticks out
his tongue and yaps in a manner which is distinctly
puppyish. Something has to be done! The pride of
cats is at stake - the shame of an entire species a
consequence of allowing a feline to behave in such a
disgraceful canine manner.

For at least 2,500 years now, one of the most—if not
the most—hotly, widely, and often contested issues is
the notion of the continuum. It's a notion which looks
upon time, space, locomotion, and change as
continuous, which is to say it implies there is no limit
to the smallness of the smallest segment of each.
Thereby, it necessarily invokes the notion of in-finite
divisibility. The latter then demands mathematical
conclusions so mani-festly self-contradictory, they
boggle the mind no less than does the notion of a
square cir-cle. No won-der, then, they move many a
renowned thinker, such as John Locke and David
Hume, to proclaim those conclusions "absurd". See
my quotes from them on pages II & VIII.

WHAT IS JUNKET? Junket is a delicious custard and a lovely dessert. But why is the old man with a red beard and red slippers eating such an enormous bowl of junket, and what could he possibly be thinking about while he feasts? That's a good question! And one that the old man poses to the crowds and crowds of people that gather to watch him. In fact, almost everyone in the whole world wants to know the answer to this riddle. And only one little boy has the answer. This ingenious book of inspired nonsense was the very first from Dorothy Kunhardt, whose Pat the Bunny has delighted generations of young children.
