The pamphlet here presented to the reader was written in the spring of 1916, in Zurich. In the conditions in which I was obliged to work there I naturally suffered somewhat from a shortage of French and English literature and from a serious dearth of Russian literature. However, I made use of the principal English work on imperialism, the book by J. A. Hobson, with all the care that, in my opinion, work deserves. This pamphlet was written with an eye to the tsarist censorship. Hence, I was not only forced to confine myself strictly to an exclusively theoretical, specifically economic analysis of facts, but to formulate the few necessary observations on politics with extreme caution, by hints, in an allegorical language—in that accursed Aesopian language—to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a "legal" work. It is painful, in these days of liberty, to re-read the passages of the pamphlet which have been distorted, cramped, compressed in an iron vice on account of the censor. That the period of imperialism is the eye of the socialist revolution; that social-chauvinism (socialism in words, chauvinism in deeds) is the utter betrayal of socialism, complete desertion to the side of the bourgeoisie; that this split in the working-class movement is bound up with the objective conditions of imperialism, etc.—on these matters I had to speak in a "slavish" tongue, and I must refer the reader who is interested in the subject to the articles I wrote abroad in 1914-17, a new edition of which is soon to appear. In order to show the reader, in a guise acceptable to the censors, how shamelessly untruthful the capitalists and the social-chauvinists who have deserted to their side (and whom Kautsky opposes so inconsistently) are on the question of annexations; in order to show how shamelessly they screen the annexations of their capitalists, I was forced to quote as an example—Japan! The careful reader will easily substitute Russia for Japan, and Finland, Poland, Courland, the Ukraine, Khiva, Bokhara, Estonia or other regions peopled by non-Great Russians, for Korea. I trust that this pamphlet will help the reader to understand the fundamental economic question, that of the economic essence of imperialism, for unless this is studied, it will be impossible to understand and appraise modern war and modern politics.

A European trading concern hires Marlow to pilot a boat up the Congo River in search of Kurtz—a first-class ivory agent and the manager of the company's highly profitable Inner Station—who is believed to be on his deathbed. With a handful of pilgrims as his passengers and a crew of cannibals, Marlow steams his way into the African interior. The terrifying discovery he makes at the end of his journey and the horrors he witnesses along the way have thrilled and disturbed readers for more than a century. A searing indictment of imperialism and a haunting exposé of mankind's savage nature, Heart of Darkness is Joseph Conrad's masterpiece. This ebook has been professionally proofread to ensure accuracy and readability on all devices. Heart of Darkness is a classic of world literature. The book tells a story about a voyage up the Congo River into the Congo Free State, in the heart of Africa. Marlow, the story's narrator, tells his story to friends aboard a boat anchored on the River Thames, London, England. This setting provides the frame for Marlow's story of his obsession with the ivory trader Kurtz, which enables Conrad to create a parallel between London and Africa as places of darkness. Central to Conrad's work is the idea that there is little difference between so-called civilized people and those described as savages: Heart of Darkness raises important questions about imperialism and racism. Joseph Conrad acknowledged that Heart of Darkness was in part based on his own experiences during his travels in Africa. In 1890, at the age of 32, he was appointed by a Belgian trading company to serve as the captain of a steamer on the Congo River. Joseph Conrad (1857-1924), was a Polish author who wrote in English after settling in England. Conrad is regarded as one of the greatest novelists in English, though he did not speak the language fluently until he was in his twenties. He wrote stories and novels, often with a nautical setting, that depict trials of the human spirit in the midst of an indifferent universe. He was a master prose stylist who brought a distinctly non-English tragic sensibility into English literature. Provides a critical re-evaluation of US territorial expansionism and imperialism from 1783 to the presentThe United States has been described by many of its foreign and domestic critics as an aempirea Providing a wide-ranging analysis of the United States as a territorial, imperial power from its foundation to the present day, this book explores the United States acquisition or long-term occupation of territories through a chronological perspective. It begins by exploring early continental expansion, such as the purchase of the Louisiana Territory from Napoleon Bonaparte in 1803, and traces US imperialism through to the controversial ongoing presence of US forces at Guantanamo Bay in Cuba. The book provides fresh insights into the history of US territorial expansion and imperialism, bringing together more well-known instances (such as the purchase of Alaska) with those less-frequently discussed (such as the acquisition of the Guano Islands after 1856). The volume considers key historical debates, controversies and turning points, providing a historiographically-grounded re-evaluation of US expansion from 1783 to the present day.Key FeaturesProvides case studies of different examples of US territorial expansion/imperialism, and adds much-needed context to ongoing debates over US imperialism for students of both History and PoliticsAnalyses many of the better known instances of US imperialism (for example, Cuba and the Philippines), while also considering often-overlooked examples such as the US Virgin Islands, American Samoa and GuamExplores American imperialism from a aterritorial acquisition/long-term occupationa viewpoint which differentiates it from many other books that instead focus on informal and economic imperialismDiscusses the presence of the US in key places such as Guantanamo Bay, the Panama Canal Zone and the Arctic
