There is music and harmony in the soul attuned to God. Music, in all its glory, its multitude of chords and intricate melodies, begins with a simple seven-note scale. God fashions soul harmony in many ways, just as He is the creative force behind the sounds that enchant our ears and thrill our senses when composers present their masterpieces for our enjoyment. In "Heart Chords" I have chosen seven themes: Longing, listening, learning, leaning, living, loving, lauding. As I worship Him, within these unique yet inseparable life applications, I am finding peace and harmony with the lover of my soul. May you enjoy the melody He is composing in my heart! Soli Deo Gloria! -Lois Williams Lois Williams makes her home at Jubilee, an active adult community in Lacey, WA with her husband, Fred. She is a poet, speaker and writer. Lois teaches "Soul Expression" journaling workshops around the country. One of God's gifted communicators, she also speaks at women's retreats and other events,

and is an enthusiastic advocate of spiritual journaling; enjoying helping God's people learn this art for their own devotional refreshment. Lois enjoys spending time with her family and the community around her, developing a deeper relationship with God and celebrating the freedom it brings. Her poetry will bring you closer to God. It will bless you, instruct you and admonish you. This is Lois' second book. Her first volume of meditations is "Psalms From the Pathway." (Xulon Press, 1993).

Unbidden, much as an unexpected blossom graces a desert landscape, Margaret Halstead entered her brother's life with only one mission: to care for him and share with him her faith in Christ. But shortly after her arrival in the rugged western country that was her estranged brother's home, it became plain to Margaret that her mission would have to include some unexpectedly wild companions--including the disturbingly dictatorial Philip Earle.

This volume of primary sources focuses on the history of emotions in Europe and its empires between 1789 and 1914. The study ends with WW1, by which point psychology and modern frameworks for the self had become standard knowledge. The study examines the subjects of the self, family and community, religion, politics and law, science and philosophy, and art and culture. Sources include letters, diaries, legal papers, institutional records, newspapers, science and philosophical writings, literature and art from a diversity of voices and perspectives. Accompanied by extensive editorial commentary, this collection will be of great
