through appearances on daytime talk shows, magazine editorials, fashion campaigns, and music videos, planting the seeds for popular cultural trends such as reality television, self-branding, influencers, and the gender revolution. Known for their outrageous looks, legendary parties, and sometimes-illicit antics, The Club Kids were the hallmarks of Generation X and would prove to be the last definitive subculture group of the analog world. The '90s, whose 30th anniversary is quickly approaching, has come to be known as the last discernible and cohesive decade, cherished by those who experienced it and romanticized by those who missed it. The first comprehensive visual document of '90s nightlife and street culture, *New York Club Kids* grants special access to a dormant world, curated and narrated by someone who participated in the experience. Featuring rare photographs and ephemera, the book culls from the personal archives of various photographers and artists whose recognition is long overdue.

This title is a stunning visual study and rigorous critical analysis of the social trends relating to 'club culture'.

In the summer of 1978, the B-52's conquered the New York underground. A year later, the band's self-titled debut album burst onto the Billboard charts, capturing the imagination of fans and music critics worldwide. The fact that the group had formed in the sleepy southern college town of Athens, Georgia, only increased the fascination. Soon, more Athens bands followed the B-52's into the vanguard of the new American music that would come to be known as "alternative," including R.E.M., who catapulted over the course of the 1980s to the top of the

musical mainstream. As acts like the B-52's, R.E.M., and Pylon drew the eyes of New York tastemakers southward, they discovered in Athens an unexpected mecca of music, experimental art, DIY spirit, and progressive politics--a creative underground as vibrant as any to be found in the country's major cities. In Athens in the eighties, if you were young and willing to live without much money, anything seemed possible. Cool Town reveals the passion, vitality, and enduring significance of a bohemian scene that became a model for others to follow. Grace Elizabeth Hale experienced the Athens scene as a student, small-business owner, and band member. Blending personal recollection with a historian's eye, she reconstructs the networks of bands, artists, and friends that drew on the things at hand to make a new art of the possible, transforming American culture along the way. In a story full of music and brimming with hope, Hale shows how an unlikely cast of characters in an unlikely place made a surprising and beautiful new world.

This book's vibrant photographs reveal the outrageous fashion of London's pulsating club scene in the 21st century. The Noughties saw the rise of a new generation of Club Kids following in the footsteps of their predecessors - the original Club Kids of New York City, who, in turn, had followed London's Blitz generation. In the early 1980s, the Blitz Club in London's Covent Garden became the focal point for an alternative club scene-frequented by Adam Ant,

Boy George, Siouxsie Sioux and Steve Strange-which spawned even more radical clubs such as Leigh Bowery's infamous Taboo club in London's Leicester Square. Bowery famously enjoined, 'Dress as though your life depends on it or don't bother', a mantra the new Club Kids have adopted as their own. They dress outrageously, with a penchant for kitsch and anti-fashion. Often with a mixture of their own self-made outfits and carefully selected labels (predominantly Vivienne Westwood), oversized accessories, excessive amounts of make-up and frequently highly androgynous looks, these flamboyant clubbers have created a vibrant New Club Kids' scene in London's bohemian nightlife underground. Fabulous or trashy, beautiful or scary, glamorous or freaky - meet the New Club Kids in these incredible photographs.

insanely successful, and notoriously decadent clubs that dominated New York City's entertainment scene, their influences reverberating around the world. Across four decades, a single mysterious figure stood behind them all: Peter Gatien, the leading impresario of global nightlife. His clubs didn't follow the trends--they created movements. They nurtured vanguard music acts that brought rock, house, grunge, hip-hop, industrial, and techno to the beautiful ones who showed up night after night to tear the roof off every party. But as Peter and his innovative team ramped up the hedonistic highs, Rudolph Giuliani was leading a major shift in the city. Under the guise of improving New York City's "quality of life," the club scene was targeted--and Peter Gatien's empire became a major focus of the administration. In this frank and gritty memoir, Peter Gatien charts the seismic changes in his personal and professional life and the targeted destruction of his nightclub empire. From Peter's childhood in a Canadian mill town to the freedom of the 1970s, through the excesses of the 1980s and the ensuing crackdown in the 1990s, *The Club King* chronicles the birth and death of a cultural movement--and the life of the man who was in control of every beat.

THE CULTURE CLUB puts the history of art and philosophy through a shredder, throws the remains in a plastic bag with a torn-up copy of last month's ROLLING StONE and some old tV guides, tips everything out on the floor and glues the pieces where they land. Now Vincent Van Gogh finds himself sharing studio space with Prince and Steven Spielberg; John Cage guest stars on THE MUPPEt SHOW; and futurist composer Luigi Russolo does the orbit with Grandmaster Flash. It's not exactly the way you learned history at school - more like a visit to some weird nightclub where Albert Camus takes the stage to read from THE OUtSIDER while the Dust Brothers seamlessly mix the Cure into the Saturday Night Fever soundtrack. What is this place? Is that Friedrich Nietzsche talking to Elvis Presley over there? And was that really Marcel Duchamp's Fountain you saw in the toilets? Craig Schuftan is on hand to make the introductions in THE CULTURE CLUB. Grab a drink, pull up a chair and let him convince you that French dramatist Antonin Artaud really is just as important to the history of rock and roll as Guns 'n' Roses.
