This book "...explains how social media can be used to destroy as well as to build. It offers actionable strategies to prevent and prepare for disasters before they strike your company. And it shows you how creative engagement can turn critics into raving fans."--Back cover.

The idea that 'home' is a special place, a separate place, a place where we can be our true selves, is so obvious to us today that we barely pause to think about it. But, as Judith Flanders shows in her best and most ambitious work to date, "home" is a relatively new idea. In *The Making of Home*, Flanders traces the evolution of the house from the sixteenth to the early twentieth century across northern Europe and America, showing how the homes we know today bear only a faint resemblance to homes though history. What turned a house into the concept of home? Why did northwestern Europe, a politically unimportant, sociologically underdeveloped region of the world, suddenly become the powerhouse of the Industrial Revolution, the capitalist crucible that created modernity? While investigating these important questions, Flanders uncovers the fascinating development of ordinary household items--from cutlery, chairs and curtains, to the fitted kitchen, plumbing and windows--while also dismantling many domestic myths. In this prodigiously researched and engagingly written book, Flanders brilliantly and elegantly draws together the threads of religion, history, economics, technology and the arts to show not merely what happened, but why it happened: how we ended up in a world where we can all say, like Dorothy in Oz, "There's no place like home."

In Victorian London, filth was everywhere: horse traffic filled the streets with dung, household rubbish went uncollected, cesspools brimmed with "night soil," graveyards teemed with rotting corpses, the air itself was choked with smoke. In this intimately visceral book, Lee Jackson guides us through the underbelly of the Victorian metropolis, introducing us to the men and women who struggled to stem a rising tide of pollution and dirt, and the forces that opposed them. Through thematic chapters, Jackson describes how Victorian reformers met with both triumph and disaster. Full of individual stories and overlooked details--from the dustmen who grew rich from recycling, to the peculiar history of the public toilet--this riveting book gives us a fresh insight into the minutiae of daily life and the wider challenges posed by the unprecedented growth of the Victorian capital.

"A bold feat of imagination Intriguing and moving: a fictional recovery of the woman's interior experience . . . and a powerful meditation upon the nature of creativity. Both an arresting interpretation of George Eliot's work and a compelling fiction in its own right." —Rebecca Mead, author of *My Life in Middlemarch* In an astonishing unsent love letter, a 19th-century Englishwoman looks back at her formative years, when she fell in love with one man but married another—the richest bidder—to save her family Gwendolen Harleth, an exceptionally beautiful upper-class Englishwoman, is gambling boldly at a resort when she catches the eye of a handsome, pensive gentleman. His gaze unnerves her, and she loses her winnings. The next day, she learns that her widowed mother and younger sisters, for whom she is financially responsible, have lost their family's fortune. As a young woman in the 1860s with only her looks to serve her, Gwendolen's options are few, so when Henleigh Grandcourt, a wealthy aristocrat, proposes to her, she accepts, despite her discovery of an alarming secret about his past. During their marriage, Grandcourt is psychologically and physically brutal to her, shattering her confidence. Gwendolen begins to encounter the alluring gentleman from the resort—Daniel Deronda—in her social circles, but Grandcourt, cold and calculating, takes pains to isolate her from everything she loves. Gwendolen's desperation nearly overcomes her, until an unexpected turn of events suddenly liberates her from Grandcourt's tyranny and leaves her financially independent. Newly free, but riddled with insecurity and desire, Gwendolen must take painful steps to shape a life that has not gone according to plan. Gwendolen and her world, originally creations of George Eliot, are inhabited and brought to sympathetic and nuanced life in this irresistible debut novel by Diana Souhami, an award-winning British biographer.

The memoir of popular BBC Radio 4 SATURDAY LIVE presenter and former member of the Communards, the Reverend Richard Coles. 'I love @RevRichardColes SO MUCH' Caitlin Moran FATHOMLESS RICHES is the Reverend Richard Coles's warm, witty and wise memoir in which he divulges with searing honesty and intimacy his pilgrimage from a rock-and-roll life of sex and drugs in the Communards to one devoted to God and Christianity. The result is one of the most unusual and readable life stories of recent times, and has the power to shock as well as to console.

On Liberty is the story of today's threats to our freedoms and a highly personal, impassioned plea in defence of fundamental rights, from Shami Chakrabarti, Britain's leading human rights campaigner On 11 September 2001, our world changed. The West's response to 9/11 has morphed into a period of exception. Governments have decided that the rule of law and human rights are often too costly. In *On Liberty*, Shami Chakrabarti explores why our fundamental rights and freedoms are indispensable. She shows, too, the unprecedented pressures those rights are under today. Drawing on her own work in high-profile campaigns, from privacy laws to anti-terror legislation, Chakrabarti shows the threats to our democratic institutions and why our rights are paramount in upholding democracy. 'Probably the most effective public affairs lobbyist of the past 20 years' - David Aaronovitch, *The Times* 'The undaunted freedom fighter' - *Observer* 'The most dangerous woman in Britain' - *Sun*

A monumental, genre-defying novel that David Mitchell calls "Michel Faber ’ s second masterpiece," *The Book of Strange New Things* is a masterpiece from a writer in full command of his many talents. It begins with Peter, a devoted man of faith, as he is called to the mission of a lifetime, one that takes him galaxies away from his wife, Bea. Peter becomes immersed in the mysteries of an astonishing new environment, overseen by an enigmatic corporation known only as USIC. His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter ’ s teachings—his Bible is their "book of strange new things." But Peter is rattled when Bea ’ s letters from home become increasingly desperate: typhoons and earthquakes are devastating whole countries, and governments are crumbling. Bea ’ s faith, once the guiding light of their lives, begins to falter. Suddenly, a separation measured by an otherworldly distance, and defined both by one newly discovered world and another in a state of collapse, is threatened by an ever-widening gulf that is much less quantifiable. While Peter is reconciling the needs of his congregation with the desires of his strange employer, Bea is struggling for survival. Their trials lay bare a profound meditation on faith, love tested beyond endurance, and our responsibility to those closest to us. Marked by the same bravura storytelling and precise language that made *The Crimson Petal* and the *White* such an international success, *The Book of Strange New Things* is extraordinary, mesmerizing, and replete with emotional complexity and genuine paths.

THE SUNDAY TIMES BESTSELLER 'Outrageous, audacious, jaw-dropping' SUNDAY TIMES 'An essential read' DAILY MAIL 'Utterly captivating' DAILY TELEGRAPH 'Hugely entertaining' GUARDIAN The fascinating life story of professional cricketer Kevin Pietersen, MBE, from his childhood in South Africa to his experiences as one of the leading lights in the world of international cricket. Kevin was dropped from the England squad in February 2014, seemingly calling time on an international career that began nearly ten years earlier. The decision puzzled many observers - although the England team had failed miserably in the Ashes tour of 2013-14, Kevin was the tourists' leading run scorer across the series, and he remains the country's highest run scorer of all time across all formats of the game. Kevin reveals all in his autobiography, telling the stories behind the many other highs and lows of his incredible career. Giving readers the full story of his life, from his childhood in South Africa to his experiences as one of the leading lights in the world of international cricket, KP is an autobiography that entertains and fascinates readers in equal measure.

" Funny, thoughtful, informative, and wise " (Publishers Weekly, starred review), this scientific foray into the animal kingdom examines how the world ’ s creatures—weed, wonderful, and everything in between—are inextricably linked. Life on planet earth is not weirder than we imagine. It ’ s weirder than we are capable of imagining. And we ’ re all in it together: humans, blue whales, rats, birds of paradise, beetles, mollusks the size of buses, gladiator slugs, bdelloid rotifers that haven ’ t had sex for millions of years, and water bears—creatures that can be boiled, frozen, and fired off into space without dying. We ’ re all part of the animal kingdom, appearing in what Darwin called "endless forms most beautiful and most wonderful." In this audacious book, Simon Barnes brings together all of the world ’ s creatures, seeking not what sets them all apart but what unites them all. He explores arcane knowledge from the works of Darwin to James Joyce and David Attenborough to Sherlock Holmes, in addition to telling his own wild, don ’ t-try-this-at-home adventures in humorous and compulsively readable prose. Fascinating, entertaining, and perfect for Discovery Channel enthusiasts, *Ten Million Aliens* will open your eyes to the animal world through Barnes ’ s "unique voice, always willing to challenge conventional wisdom and look for deeper meanings " (The Sunday Telegraph).

In 1977, Johnson's best selling *How Long Will South Africa Survive?* offered a controversial and highly original analysis of the survival prospects of apartheid. Now, after more than two decades of the ANC in government, he believes the question must be posed again. "The big question about ANC rule," Johnson writes, "is whether African nationalism would be able to cope with the challenges of running a modern industrial economy. Twenty years of ANC rule have shown conclusively that the party is hopelessly ill equipped for this task. Indeed, everything suggests that South Africa under the ANC is fast slipping backward and that even the survival of South Africa as a unitary state cannot be taken for granted. The fundamental reason why the question of regime change has to be posed is that it is now clear that South Africa can either choose to have an ANC government or it can have a modern industrial economy. It cannot have both."
