Self-help for low self-esteem can give you the tools you need to overcome your confidence issues. Everyone experiences low self-confidence at some time or another. But for some people, these feelings of inadequacy are persistent and overwhelming.

We're told that the key to success in life and business is confidence: believe in yourself, and the world is your oyster. But building confidence can be a challenging task. And, as leading psychologist Tomas Chamorro-Premuzic argues confidence can actually get in the way of achievement - self-esteem is nothing without the competence, the core skills, to back it up. Confidence is feeling capable. Competence is being capable. None of the figures whose success is put down to supreme self-belief - Barack Obama, Madonna, Muhammad Ali - could have achieved their goals without the hard-won skills (and years of training) behind the confidence mask. Successful people are confident because of their success, and not the other way around. Whether you want to improve your social skills, get a promotion or that all-important first job, this game-changing exploration of how to build success, in the mould of Robert Cialdini's Influence, Susan Cain's Quiet and Steven Covey's The 7 Habits of Highly Effective People, will change the way you think about achievement.

Become more confident at work. You need confidence to inspire trust, communicate effectively, and succeed in your organization. But self-doubt and nerves can undermine your ability to act decisively and persuade others. What can you do to push past these insecurities? This book explains how you can use emotional intelligence to become more confident at work. You'll learn how to correct what is holding you back, how to overcome imposter syndrome, and when feeling too self-assured can actually backfire. This volume includes the work of: Tomas Chamorro-Premuzic Rosabeth Moss Kanter Amy Jen Su Peter Bregman How to be human at work. The HBR Emotional Intelligence Series features smart, essential reading on the human side of professional life from the pages of Harvard Business Review. Each book in the series offers proven research showing how our emotions impact our work lives, practical advice for managing difficult people and situations, and inspiring essays on what it means to tend to our emotional well-being at work. Uplifting and practical, these books describe the social skills that are critical for ambitious professionals to master.

By working on self-esteem with the tools of mindfulness, this book offers readers the freedom to break out of unconscious thought habits which dictate unsatisfactory lives and to achieve real freedom and fulfilment. Perhaps no other self-help topic has spawned so much advice and so many conflicting theories as self-esteem. It's like salt ? a little gives flavour, strength and coherence to our personalities, while lack of it leads to an anodyne life of putting up with abusive situations or relationships, leading to depression and lack of fulfilment. On the other hand, too much self-esteem can create an unappealing sense of entitlement, pointing to the twisted paths and dark woods of narcissism. Using the concept of mindfulness, which has been defined as paying attention in a particular way, this book looks at the ongoing meditative practice required to gain the right balance of self-esteem in a flexible and effective way.
