The "Just the Tools" edition of "Conflict Resolution for Couples" is  
an abbreviated version of Paul Shaffer's first book, "Conflict  
Resolution for Couples" - originally published in 2005, and then re-  
published in 2011. This leaner edition "cuts to the chase" of couple's  
conflict resolution, without the foundational and special population  
sections that made the original book a much meatier but time-consuming  
work. "Just the Tools", while a stand-alone title, also serves as a  
companion book to Paul's "Top 10 Marriage Essentials" published in  
2014 (and the "Top 10 Dating Essentials" projected for 2015). It  
retains the same comprehensive, easy-to-understand, and logical  
progression found in the original. This book consists of essentially  
two parts: Part I is about the tools for resolution. It presents a  
model for managing conflict and itemizes 26 guidelines (the ABC's of  
conflict resolution) for identifying, validating, processing and  
resolving issues. Part II discusses strategies for change. It focuses  
on initiating and maintaining change, understanding lack of change,
