Team Micro - Permanent Makeup & Beauty Aesthetics in Essex

Permanent makeup is applied using heavy gauge needles or a blade to penetrate deep into the skin causing bleeding, bruising, scabbing, scarring, and downtime. Permanent makeup uses various forms of tattoo inks that are toxic to the body; its colors are harsh and change over time. So people can end up with blue or orange inks in the skin.

Life is such a funny, amusing journey- when you learn to laugh at yourself and the antics of others. Hello! I am Robyn my pen name is Robyna Smith-Keys. I started working weekends and school holidays in the family salons when I was 5. In 1962 I began my apprenticeship. After a break from the industry to have my babies, I wanted to read all that I could to update my skills. The few books available at that time were over \$300 . In the late 1970s that was a lot of money. In the 1990s I realised, students were not remembering all they were learning at Beauty School. That is when I started a protocol book for our salons. The books contained all procedures with step by step instructions. My protocol notes are now training manuals for the industry. In the 1990s I was asked to assist with the Australian Standards rewrite and again 2007-2014 to assist with the International Beauty Industry Standards -Training Packages. This is your guarantee when purchasing my books, that the information meets the highest of industry standards. Not everyone has a wonderful Mum, Auntie or Grandmother to hand down their skills. I pray that my books are your loving grandmother handing down her skills with love to you. I also pray that you expand on my skills and become better than me. All my Beauty School Books manuals give you ideas on procedure forms. Happy Learning. Table of Contents in part. Section A-C What is Permanent Make-Up? Cosmetic Tattoo Micro-pigmentations Training Manual is Bible for Cosmetic Tattooists. With step by step instructions and exercises, on how to practice the art. All the Do and Do Nots with photos of mistakes therapist make, along with photos of how it should be done. It contains everything a therapist should know. The book has been tested on new students. Robyna set up the books so new students could teach them self the art. The book covers all that is required by Industry Standards SIBBSKS504A - Design and perform cosmetic tattooing. Supersedes and is equivalent to WRBSS505B Design and perform Cosmetic tattooing / micropigmentation procedures. Everything that is required by the Australian Standards and the International Standards Associations is covered in this book, 338 pages of student information all the "how to" with photos, YouTube site addresses with my comments on each video. What I, after 50 odd years in the industry consider to be correct and incorrect. The book contains:-Prior knowledge requirements, Cosmetic Tattooing/Micropigmentation procedures, Anaesthetics, Colour Corrective Mixing, Skin undertone facts. Active skin disorders. Contra-indications. Client history, consultation & approval Forms. Pricing your work. Preventing infection, sterilization, machine instructions and needle insertion, portion control, eye brow shaping procedures, eyeliner procedure, lip colour procedure. Aftercare advice, assessment, clients possible questions, how to package correctly for autoclave, sterilizing. Colour correction rules, how to remove or fade down colour with Glyco gel. Advertising yourself and your business, medical disclosure, procedural techniques, pigments types and how to mix for skin types and undertones, pigment dangers and recalls. Infection prevention. Topical anaesthetics. Client consultation forms, areola form disclaimer. How micro needling works, needle lengths and purpose, colour tattooing verses micro needling. Expected results, after treatment, FAQ & suggested answers. The book has been tested by giving it to students that did not have a teacher to see if they could bring them self to the final exam day by using this book and receive a pass. Not only did they pass they excelled.

This Cosmetic Tattooing Permanent Makeup Micro-pigmentation Training Manual, contains everything you will require to enter the field of becoming a permanent makeup technician. There are all the modules required by The Australian Standards and International Micro-pigmentation Standards. You would be well advised to read the index pages of the book as there are far too many modules contained in the book to be named here. After 40 years of training others, Robyna has now retired. All her handwritten notes have been compiled and placed into training manuals. Robyna asked her students to assist with the book and tell her what they needed. The book was given a trial run several times to see if students could work through the book and use it as a reference and how to guide. With their input the book was revised twenty times before it was released for sale. Robyna first produced the book called "Cosmetic Tattooist Micropigmentation Training Manual" in 2007. Without hesitation we recommend this book, to both professional tattooist and students. You would be well advised to have this book in their collection. Robyna was proud to be chosen to sit on the committee to rewrite the Australian Standards in the Early 1990s and again in 2007 - 2010 for the Hair, Health and Beauty industry. To add to her credits Robyna has been presented with several industry awards. This book was published as a PDF on CD in 2010 and has since been revised. This is Volume 6 which includes Micro-needling.

amiea, global leader in permanent makeup, together with Toni Belfatto gather all the knowledge that is needed to start a career as an artist. amieas ambition is to provide every permanent makeup artist with the tools, knowledge as well as devices and pigments, to earn an income and to experience an unique lifestyle. This book combines knowledge and art. It includes summaries, ideas, and projects, and reveals the secrets of dermopigmentation: a science in which there is still a lot to discover. The globally renowned micropigmentation artist Toni Belfatto, together with technical contributions from the amiea International Master Trainers Elena Nikora and Olga Kravchenko as well as the Head of Academy Sara Lopez, has compiled all the information, techniques, and insider know-how you will need to start your artist career with the best possible knowledge. In ten years amiea has become the world leader in micropigmentation. This book, like any other amiea product, proves that the brand is setting standards through innovation and highest quality with passion "Made in Germany".

With about 10–20% of the adult population in Europe being tattooed, there is a strong demand for publications discussing the various issues related to tattooed skin and health. Until now, only a few scientific studies on tattooing have been published. This book discusses different aspects of the various medical risks associated with tattoos, such as allergic reactions from red tattoos, papulo-nodular reactions from black tattoos as well as technical and psycho-social complications, in addition to bacterial and viral infections. Further sections are dedicated to the composition of tattoo inks, and a case is made for the urgent introduction of national and international regulations. Distinguished authors, all specialists in their particular fields, have contributed to this publication which provides a comprehensive view of the health implications associated with tattooing. The book covers a broad range of topics that will be of interest to clinicians and nursing staff, toxicologists and regulators as well as laser surgeons who often face the challenge of having to remove tattoos, professional tattooists and producers of tattoo ink.
