Kato KR65H (SL650R) Kato released the sales of their new 65-ton rough terrain crane, SL650R in October 2005. The 65-ton rough terrain crane was the largest 2-axle rough terrain developed then but was replaced with a newer model 70-ton rougher Kato SR700L three years later in 2008.

Obtaining a book that could change him, a fatty began a new chapter in his life. All sorts of vampires, werewolves, Abyss Lords, ancient Evil Gods, and even the living female corpses of the Three Kingdoms' era would appear. What awaited the end was a showdown at the end of the century.

The tranquility of the quiet community of Kabashiro was shattered when North Korean ballistic test missiles soared over its skies, sending residents of the small seaside town scrambling for cover. The excitement had barely died down after the all-clear signal when a pod of whales beach themselves on its shores. The indigenous Ainu inhabitants of the town saw all these as signs of the gods! displeasure and when graves of their ancestors were disturbed, Ryohci feared the worst. But Kabashiro's charismatic mayor has every reason to be optimistic; after all, he just pulled off a deal for a multi-billion dollar investment which promises thousands of jobs and the biggest ever economic windfall for the town. The Peridot Hokkaido Resort will be a feather in the cap for the prefecture's young governor who some say may be Prime Minister of Japan one day. The tiny Ainu fraternity are less than enthusiastic though, as they've seen too many opportunities pass them by and their people continue to be left behind economically as they town prospered. Michiru is one young, bright hope for the Ainu People but her heart is set on leaving Kabashiro and her accused Ainu heritage. Haru supports his sister's ambitions for Tokyo but his affinity is to the land of their forefathers although he is unlikely to follow in the long line of the family's artisanal fishing livelihood. Everything changed when it was discovered that the new resort will be built on sacred ancestral Ainu land which the government had previously pledged to return to the Ainu People. The feted American investor, Peridot Resorts LLC, and their local business partner, Toyodai, became pariahs overnight but the governor is determined to push through with development as the financial and political stakes are too high. The battle lines are drawn up where the minnow Ainus looked doomed to lose until the most unexpected saviour rose among their ranks. Aided by the invisible hands of unseen actors, the Ainus head for a showdown with the powers that be, but there may be more that meets the eye and it is unclear who's friend and who's foe. A quirky professor hailing from Virginia could unwittingly bring a beacon of hope for the Ainus as the wrath of the gods descend upon the town. With the eyes of the world focused on Kabashiro, deliverance is out of the Ainus' own hands as the escalating events spiral towards a climatic end.

Masao Maruyama was the most influential and respected political thinker in post-WWII Japan. He believed that the collective mentality, inherent in the traditional Japanese way of thinking, was a key reason for the defeat in WWII and was convinced that such thought needed to be modernized. In this book Fumiko Sasaki argues that the cause of the prolonged political, economic and social decline in Japan since the early 1990s can be explained by the same characteristics Maruyama identified after 1945. Using Maruyama's thought Sasaki explores how the Japanese people see their role in their nation, the democracy imposed by the US, and the relationship between power and international relations. Further, Sasaki also considers what the essence of national security is and how much it has been forgotten in current Japanese political thought. The book solves the puzzle of how Maruyama, a teacher of political realism who emphasized the importance of power, could insist on the policy of unarmed neutrality for Japan's national security, and in doing so, illuminates how traditional Japanese thought has impacted development in Japan. Despite his status within Japan, there are few English language books available on Maruyama and his thought on national security. This book therefore will be an essential resource for students and scholars of Japanese Politics and Political Thought.

With her parents on the verge of separating, a twelve-year-old Japanese American girl spends the summer in Los Angeles with her grandparents, where she folds paper cranes into wedding displays and learns how complicated relationships can be.
