perspectives of photographers, critics, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting answers to questions such as: What are photographs? Should they be called art? Are they ethical? What are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations. It looks at how the worth of photographs is

It's the latest and hottest technique, made possible only through digital. High Dynamic Range photography is the process of taking several pictures of a scene at various exposures, then merging them into one file. So the entire photo can look crisp and detailed, from highlights to midtones to shadows—and photographers needn't sacrifice any part of their image. And the best way to master this exciting technology is with this thorough, easy-to-follow, and visually

spectacular guide. No other title does justice to these cutting-edge techniques, which actually take the viewer into worlds far beyond normal photography—sometimes even beyond normal human perception. Ferrell McCollough, a widely respected photographer, pushes the boundaries and inspires others to pursue their artistic vision, too. The amazing results simply can't be achieved any other way.

Why is that art? Why is it in an art museum? Who says it's art? Why is it good? Author Terry Barrett addresses these questions about contemporary art using four key sources: a broad, diverse, and engaging sampling of works, the artists who created the works,

Basic Critical Theory for  
Photographers generates  
discussion, thought and practical  
assignments around key debates in  
photography. Ashley la Grange  
avoids the trap of an elitist and  
purely academic approach to  
critical theory, taking a dual  
theoretical and practical approach  
when considering the issues. Key  
critical theory texts (such as  
Sontag's 'On Photography' and  
Barthes' 'Camera Lucida') are  
clarified and shortened. La Grange  
avoids editorilising, letting the  
arguments develop as the writers  
had intended; it is the assignments  
which call into question each  
writer's approach and promote
