"She Wants to Dance With Me" is a script for a theatrical romantic comedy play, directed towards high school/junior high aged teens.

Believing that transformation is possible and that it must come from within, Clar Doyle illustrates the vital connection between drama and critical pedagogy. Presuming that a practice informed by the theory of critical pedagogy is essential to achieve an emancipatory education, Doyle shows how well drama and aesthetic education can encourage a pedagogy that is critical. He explores the real as well as the perceived values and understandings given to the aesthetic in school settings, how tastes and awareness are produced and how students' backgrounds inform the way in which art and drama are experienced. Furthermore, Doyle shows the ways in which the dominant cultural agencies rob both teachers and students of creativity through their reproductive policies. The book explores such critical questions as: the nature of culture; the historical place of drama within education; and the debate between drama and theatre as it applies to schooling. With a critical perspective, he reviews the current status of drama education and suggests ways in which educators can redefine their mission and refine their practice. By examining the influence of the culture industry and the issues surrounding style choices, Doyle highlights the challenge that teachers must meet in order to use performance skills to tease out attitudes and understandings. He concludes by showing how drama can help students, not only to bring about change in their own lives, but to effect change in the world around them.

This reader collects primary documents on the phonograph, cinema, and radio before WWII to show how Americans slowly came to grips with the idea of recorded and mediated sound. Through readings from advertisements, newspaper and magazine articles, popular fiction, correspondence, and sheet music, one gains an understanding of how early-20th-century Americans changed from music makers into consumers.

Brimming with advice and techniques, this essential reference for book- and songwriters clearly explains the fundamentals of the three crafts of a musical—book, music, and lyrics. Using copious examples from classic shows, Frankel has created the quintessential musical writers' how-to. Among the topics: definitions of musical theater; differences between musical books and straight plays and between poetry and lyrics; what a score is and how it develops; how to write for the voice; and how to audition musicals for producers. With a new introduction and revised text, Frankel's work is ready to guide a new generation of aspiring writers.

From patriotic "God Bless America" to wistful "White Christmas," Irving Berlin's songs have long accompanied Americans as they fall in love, go to war, and come home for the holidays. Irving Berlin's American Musical Theater is the first book to fully consider this songwriter's immeasurable influence on the American stage. Award-winning music historian Jeffrey Magee chronicles Berlin's legendary theatrical career, providing a rich background to some of the great composer's most enduring songs, from "There's No Business Like Show Business" to "Puttin' on the Ritz." Magee shows how Berlin's early experience singing for pennies made an impression on the young man, who kept hold of that sensibility throughout his career and transformed it into one of the defining attributes of Broadway shows. Magee also looks at darker aspects of Berlin's life, examining the anti-Semitism that Berlin faced and his struggle with depression. Informative, provocative, and full of colorful details, this book will delight song and theater aficionados alike as well as anyone interested in the story of a man whose life and work expressed so well the American dream.
