Andrew Ure (1778-1857) was a professor at the University of Glasgow and an enthusiast for the Industrial Revolution's new systems of manufacturing. As we know, a consequence of these new developments was the redundancy of many workers, just as we are experiencing today with 'downsizing' and 'reengineering'. This study details the creation of the general education system as an answer to the need for less self-willed and intractable workmen, which were unfit to become "components of a mechanical system". In our times of permanent technological revolution, this is an excellent insight into the roots of industrial progress. Understanding rural workers' shock and their need to readapt to a new urban, factorial reality, and the white collar workers' dilemma of social security or entrepreneurship is achieved by this fascinating and important book.

Covers significant eras in U.S. history. Encourages students to analyze evidence, documents, and other data to make informed decisions. Includes guidelines for students, answer prompts, and a scoring rubric. Develops essential writing skills.

This book includes 14 essays written by the author that provide practical advice for teachers and students to assist both in achieving the best results for teaching, learning, and writing about history. Part 1 offers suggestions for enlivening classroom presentations. Part 2 addresses the problems of teaching students to write, and part 2 focuses on history tests and exams, including ways to construct and respond to essay questions.

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most
