A first of its kind, the Paramedic Flipped Classroom combines curated content from a variety of market-leading Public Safety Group resources with student-directed activities, including problem-solving exercises, peer-to-peer activities, and student coaching to deliver truly effective and memorable learning experiences. The flipped classroom model dedicates class time to resolving misconceptions through collaborative problem-solving activities, elevating knowledge into application-level tasks and skills

Access Free Delmar Clinical Medical Isting

practice, and increasing engagement and confidence. Based on concepts of active learning, student engagement, and hybrid course design, the Paramedic Flipped Classroom serves as a course roadmap to provide a cooperative and successful learning experience. Students interact with primary source content outside of the classroom to develop foundational knowledge. The Paramedic Flipped Classroom delivers primary source content in a variety of engaging formats, including Nancy Caroline's Emergency Care in the Streets, Eighth Edition in paperback and eBook formats, Interactive Lectures, and content from the Virtual Ride-Alongs. Sample activities include: Build It: Students use different objects and materials to build models relating to the lesson topic. Problem-Based

Access Free Delmar Clinical Medical Isting

Learning (PBL) Cases: Students review patient cases that require critical thinking to arrive at the correct diagnosis and patient intervention.

Challenge Scenario: Students act out a complex scenario that contains multiple issues and requires strong problem-solving skills. Simulated patient experiences: Students appreciate what it's like to experience various conditions, such as schizophrenia, sensory or communication deficits, geriatric mobility difficulties, and more.

Wrecking Ball: Students create models of wrecking balls to demonstrate the principles of kinesthetics and determine how those principles apply to vehicle crashes and other mechanisms of injury. Simon Says: Students take turns being Simon, using medical terms to direct their
