When most of us say "I do," we expect it to be forever. After all, it's quite likely that we might not have walked down the aisle in the first place had we believed otherwise. Certainly, in some cases, marriage truly does last forever. Of course, the truth of the matter is that this never happens without a great deal of work and effort on behalf of both parties to a marriage. It is important to understand and acknowledge though, that even in some cases where both parties are putting forth the effort and truly do want their marriage to work, sometimes, for any number of reasons, it simply doesn't. In this guide, we address the major issues that couples encounter during a divorce - issues of child custody, spousal and child support, and property division. We also address a host of other important matters, from issues you might consider as you contemplate divorce in the first place, all the way through the resolution of the divorce process as you prepare to begin the next chapter of your life, and everything in between. regarding marriage counseling, domestic abuse, affairs and alienation of affection, the process of divorce, parenting agreements, separation agreements, and entitlement to alimony. Realizing that divorce may be the best choice as you move forward toward the next chapter of your life can be incredibly difficult, even as you realize it is best. Certainly, everyone who makes this decision does so in their own way, in their own time, and for their own reasons. While this is true, and while every divorce is different, there are some things about divorce that are universally true. One of those truths is this: divorce is difficult. That's the truth, plain and simple. It is painful, it is stressful, and it can certainly be overwhelming. Another truth is this: no divorce guide can fix it. That's just the reality of the situation. No amount of advice, or explanation, or legal knowledge will be able to entirely remove the pain that you feel or make the divorce process completely stress-free. It simply won't happen. The fact of the matter is that any divorce will come with its share of pain. It will be difficult. It will be stressful. There will be moments of grief and anger and frustration - and there is no quick or easy way around it. The good news though is that there are steps you can take to make a painful and difficult process slightly less so. That is the hope and purpose of providing this guide, and it is the spirit in which it is made available to you. Divorce doesn't have to be devastating. Reject the idea that you'll be damaged by the process. In fact, if you do it right, you'll grow from the experience. You'll start your new life better than you were before. Divorce is difficult. There's no avoiding the emotional, financial, and legal challenges associated with divorce. Each member of the family will be marked by the experience in one way or another. What we've learned, through working with thousands of families going through divorce, is that some people come out of the experience devastated. For them, wallowing in the aftermath for years becomes the norm. Their divorce impacts their day-to-day life for decades after the end of the marriage. Many of these people never let go of the negativity surrounding the end of their marriage. Other people have a different experience of divorce. They bounce back. They cope with the process as it happens and then they recover. These people move on to live bigger and better lives. They're happier, healthier, and more prosperous than in the past. They enter into new relationships, and they thrive. They don't deny the challenge presented by the divorce, but they don't let it define the rest of their lives. How is it that people can be impacted

An astonishing one quarter of adults between the ages of eighteen and thirty-five have grown up in divorced families. Now, as this generation comes of age, *Between Two Worlds* will speak to them like no other book. Marquardt's data is undeniably compelling, but at the heart of her book are stories—of reunions with one parent that were always partings from the other, of struggles to adapt to a parent's moods, of the burden of having to figure out the important questions in life alone. Authoritative, beautifully written, and filled with brave, sad, unflinchingly honest voices, *Between Two Worlds* is a book of transforming power for the adult children of divorce, whose real experiences have for too long gone unrecognized. Based on a pioneering new study, *Between Two Worlds* is a book of transforming power for anyone who grew up with divorced parents.

Eleven-year-old Isabella's blended family is more divided than ever in this "timely but genuine" (Publishers Weekly) story about divorce and racial identity from the award-winning and New York Times bestselling author of *Out of My Mind*, Sharon M. Draper. Eleven-year-old Isabella's parents are divorced, so she has to switch lives every week: One week she's Isabella with her dad, his girlfriend Anastasia, and her son Darren living in a fancy house where they are one of the only black families in the neighborhood. The next week she's Izzy with her mom and her boyfriend John-Mark in a small, not-so-fancy house that she loves. Because of this, Isabella has always felt pulled between two worlds. And she is beginning to realize that being split between Mom and Dad involves more than switching houses, switching nicknames, switching backpacks: it's also about switching identities. Her dad is black, her mom is white, and strangers are always commenting: "You're so exotic!" "You look so unusual." "But what are you really?" She knows what they're really saying: "You don't look like your parents." "You're different." "What race are you really?" And when her parents, who both get engaged at the same time, get in their biggest fight ever, Isabella doesn't just feel divided, she feels ripped in two. What does it mean to be half white or half

My motive for writing this book is to restore the unity of the African-American family. There are values that we have strayed away from. So many African-Americans are not getting married because they fear that it will not work out. For those that do get married, fewer and fewer of those marriages are lasting. A great number of people get married with the mindset that if it doesn't work out they will just get a divorce. By having that mindset they are going into the marriage with an attitude of defeat. As I look around our nation, I see so many families breaking apart, thereby destroying future generations. We do what looks good, feels good, and whatever makes us happy as individuals. We are molding our next generation into self-centered out of control individuals going nowhere fast. The morals and values of our ancestors are almost extinct. The desire of my heart is for us to stop hurting and damaging one another. It's a catastrophic domino effect that seems like a never ending nightmare! We have to take the time to sit back and realize our selfishness only preps the next person for the same, or preps them to feel there's no way out of being nice and loving people and getting hurt, being someone's doormat! I wish to help restore the worth of our men and women; to revive the black

community, putting things into proper perspective so that people who get married can STAY married, and for those that aren't married and are afraid of the marriage failing, to break free of that fear and fulfill their desire to be married. We don't have to accept a dysfunctional family as the norm! In order to establish and maintain a healthy family, our perspective on life has to be positive, with one main ingredient: love. It is the responsibility of each individual to do what's necessary to build a strong foundation that will solidify a successful relationship and/or marriage, even while you are still single. It breaks my heart to see so many unhappy people. Whether they are unhappily married or unhappily single, many are miserable and have no clue as to why. In this book I will lay out some things very clearly, step by step, to help you understand why marriages fail, relationships crumb, and fear so gruesomely imprisons us.
