Victricia Malicia Calamity Barrett may have been born on her family's pirate ship, but this mild-mannered young lady is sick of the sea: she'd much rather be ashore with her nose permanently buried in a book. But when Scylla the Serpent—the scourge of the sea—appears, quick-thinking Vic saves the ship by thinking the serpent on the head with her trunk full of books. For her bravery she is rewarded with the thing she wants most: a home on a little island. She opens a bookstore, and Landlubber Books becomes the pirates' favorite port in a storm. As Carrie Clickard's nimble, jaunty rhymes roll off the tongue like waves onto shore, children will delight in Victricia's adventures while parents will relate to her family's attempts to understand their unusual daughter. Victricia may not be a typical pirate hero, but she is the captain of her own destiny in this rollicking tale of self-determination, sticking to your dreams, and the joy of reading.

A beautifully illustrated volume on the Tudor-style house, a keystone in American interiors and architecture. Since its birth in sixteenth-century England, the Tudor-style house has been a favorite for homeowners from all walks of life. Hallmarks of the style include steeply pitched gables and roofs covered in slate or imitation thatch, bays of casement windows with diamond-paned leaded glass, clustered chimney stacks, interiors of wood paneling and plasterwork, and, especially, half-timbered and stuccoed facades. In the United States, prime examples can be found coast to coast, from the Tudor City apartment buildings of New York to the stately homes of Tuxedo Park; from the cozy, Prairie-inspired homes of Oak Park, Illinois, to the richly nuanced Arts and Crafts-inflected mansions of Pasadena, California. In an age when all agree that the McMansion, with its ungainly proportions and sameness of design, should be banished from the landscape, the Tudor house remains a delight and an inspiration, being anything but cookie-cutter, with tremendous variation from home to home. The Tudor Home showcases the wide variety of Tudor homes and the many manifestations the form has taken across the nation, from the famous communities of Bronxville, New York, to the California Tudors of Highland Park. With a wealth of color imagery newly photographed for this volume and insightful commentary on the history, development, and evolution of the Tudor style in America, the book is an engaging read that opens a window on this much loved style of home.

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality.
